Lewis, 2002-03-29 From the 1980s Britain's large Muslim community a long established but little noticed group suddenly
became visible as controversies involving the education and dress of Muslim schoolgirls the Rushdie affair and the Gulf War
excited huge media interest Caricatures and misconceptions began to spread and with political Islam on the march in many
Middle Eastern countries fears of British Muslims becoming a bridgehead in the West for the establishment of an Islamic
theocracy began to loom in the popular imagination How do British Muslims really think about themselves about their
religion and their politics What dilemmas do they face as they give up the myth of return that sustained first generation
immigrants and struggle to define a British Islam In this important book the first major study of British Muslims Philip Lewis
deals with the reality behind distorted media images through a rich first hand account of the Muslim community in Bradford
the city which became the epicentre of British Muslim anger and resistance to The Satanic Verses **Issues in Islamic
Law** Mashood A. Baderin, 2017-07-05 Islamic substantive law otherwise called branches of the law *furu al fiqh* covers the
textual provisions and jurisprudential rulings relating to specific transactions under Islamic law It is to Islamic substantive
law that the rules of Islamic legal theory are applied The relationship between Islamic legal theory and Islamic substantive
law is metaphorically described by Islamic jurists as a process of cultivation *istithmar* whereby the qualified jurist *mujtahid*
as the cultivator uses relevant rules of legal theory to harvest the substantive law on specific issues in form of fruits *thamarat*
from the sources The articles in this volume engage critically with selected substantive issues in Islamic law including family
law law of inheritance law of financial transactions criminal law judicial procedure and international law *al siyar* These areas
of substantive law have been selected due to their contemporary relevance and application in different parts of the Muslim

world today The volume features an introductory overview of the subject as well as a comprehensive bibliography to aid further research

Islamic Algorithms Gary R. Bunt, 2024-04-04 Explores the intersection between the internet and Islamic influencers and how key historical formative figures and entities and contemporary individuals have acquired extensive online audiences

A comparative study of elite English-medium schools, public schools, and Islamic madaris in contemporary Pakistan Akhtar Hassan Malik, 2015-04-12 This ethnographic study examines the role of differing school knowledge in reproducing various social classes in the society It was observed that an unequal availability of capital resources agents class habitus and the type of their cultural currency act as selection mechanisms that clearly favour some social groups over others The ruling classes ensure the transfer of their power and privilege to their children by providing them with quality education in elite schools The disadvantaged classes are excluded from these unique institutions by both social and economic sanctions They have no other option than to educate their children either in public schools or Islamic madaris As a result inequitable educational opportunities consolidate the existing social class hierarchy

Islamic Revival in Nepal Megan Adamson Sijapati, 2012-03-29 Drawing on extensive fieldwork among Muslims in contemporary Nepal this book examines the local and global factors shaping an emerging Islamic revival in a Hindu majority region of South Asia It traces the ways that Nepal s Muslims have become active participants in the larger global movement of Sunni revivalism and Nepal s own local politics of representation in the context of political transition to democracy and secularism

CURRICULUM REFORM IN PAKISTAN Amna Afreen, 2022-02-25 I have written this book in an effort to explore how the history of Pakistan has resulted in the critical problems weighing down its education system The book examines the questions Why and how has a small elite class come to rule Pakistan And how has their rule worsened the country s problems The focus will be to critically examine the elements of the Pakistani national curriculum and madrasas and their effects on Pakistani society The book represents the fusion of my experiences in Pakistan with extensive literature analysis interviews and textbook analysis This research began when I came to the United States in January 2015 through the SAR program I wanted to know the answers to profoundly unsettling questions How can a society be so intolerant that a scholar educated solely in Pakistan is disregarded and assassinated while many Western educated scholars with traditional insular thoughts are not only appreciated but flourishing I wanted to know why Pakistani elites have so much power and freedom while lower classes are profoundly oppressed Elites who barely pay taxes have been in power for generations while those that pay taxes suffer from sky high inflation The influential religious leaders mostly belong to the elite class while their followers are mostly lower class Ruling families and social classes mostly control appointed positions Do those in power not have a responsibility to speak on issues of social justice rather than limiting themselves in claiming that theirs is the only true form of Islam Why don t they work to end the disparity of quality education between classes in Pakistan Instead many elites run their own lucrative elite Islamic schools More importantly why do the ulama which literally means those who possess knowledge ilm particularly of

Islam maintain a tight hierarchical system in the madrasa Islamic seminary community that rarely allows poor intelligent students to attain leadership positions Why are the ulama silent in the face of ruthless murder of and discrimination against Pakistani minorities Book Review Pakistan Educational Reforms is a major study of education in Pakistan and its national and madrasa curriculum that fosters national and religious sectarian divisions intolerance and conflicts Dr Amna Afreen documents the political socio economic and religious causes limited government funding widespread poverty and illiteracy and the poor training and performance of teachers that have produced a failed educational system at urban and rural government and religious schools madrasa and offers a series of potential solutions and reforms John L Esposito University Professor and Founding Director of The Alwaleed Center for Muslim Christian Understanding Georgetown University
