Why Startups Fail Tom Eisenmann, 2021-03-30 If you want your startup to succeed you need to understand why startups fail Whether you're a first time founder or looking to bring innovation into a corporate environment *Why Startups Fail* is essential reading Eric Ries founder and CEO of LinkedIn and New York Times bestselling author of *The Lean Startup* and *The Startup Way* Why do startups fail That question caught Harvard Business School professor Tom Eisenmann by surprise when he realized he couldn't answer it So he launched a multiyear research project to find out In *Why Startups Fail* Eisenmann reveals his findings six distinct patterns that account for the vast majority of startup failures

Bad Bedfellows Startup success is thought to rest largely on the founder's talents and instincts But the wrong team investors or partners can sink a venture just as quickly

False Starts In following the oft cited advice to fail fast and to launch before you're ready founders risk wasting time and capital on the wrong solutions

False Promises Success with early adopters can be misleading and give founders unwarranted confidence to expand

Speed Traps Despite the pressure to get big fast hypergrowth can spell disaster for even the most promising ventures

Help Wanted Rapidly scaling startups need lots of capital and talent but they can make mistakes that leave them suddenly in short supply of both

Cascading Miracles Silicon Valley exhorts entrepreneurs to dream big But the bigger the vision the more things that can go wrong

Drawing on fascinating stories of ventures that failed to fulfill their early promise from a home furnishings retailer to a concierge dog walking service from a dating app to the inventor of a sophisticated social robot from a fashion brand to a startup deploying a vast network of charging stations for electric vehicles Eisenmann offers frameworks for detecting when a venture is vulnerable to these patterns along with a wealth of strategies and tactics for avoiding them A must read for founders at any stage of their entrepreneurial journey
