Science Experiments 2025:

Science Abstracts, 1926 2025 International Conference on Blockchain and Web3.0 Technology Innovation and Application Exchange Xiao Song Zhang, Sheng Cao, 2025-12-01 This book constitutes the refereed proceedings of the Second Conference on 2025 International Conference on Blockchain and Web3 0 Technology Innovation and Application Exchange BWTAC 2025 held in Chengdu China during November 7 9 2025 The 41 full papers and 3 short papers included in this book were carefully reviewed and selected from 98 submissions They were organized in topical sections as follows Protocols Security and Smart Contracts Data Governance and Applications and Scalability Cross Chain and Ecosystems Modeling Economic Growth in Contemporary Malaysia Bruno S. Sergi, Abdul Rahman Jaaffar, 2021-02-12 This book considers crucial changes to Malaysian economic areas and social well being The chapters cover diverse industries such as IT green technology retailing banking tourism and hospitality education logistics finance banking and many others **Education and the Politics of Time** Ronni Laursen, Miriam Madsen, 2026-01-07 Education and the politics of time temporal governance in teaching and learning explores how time its organization regulation and lived experience structures education across diverse contexts Organized into four thematic sections the book s 17 chapters offer critical analyses and vivid empirical accounts that expose the politics of time in education The first section the national and transnational politics of time shows how reforms and policy agendas impose particular temporal logics on education systems The second the politics of institutional time investigates how preschools schools and universities govern everyday life through calendars timetables and institutional rhythms The third the politics of teachers time examines how temporal pressures shape professional work identity and wellbeing The fourth the politics of students time traces how temporal expectations regulate students learning trajectories aspirations and everyday experiences Taken together these chapters reveal how the politics of time shape educational practices in contested ways and toward different ends With contributions from scholars based in Denmark Sweden Finland Australia Kenya Chile and the USA the volume situates local cases within wider global dynamics Rather than treating time as neutral the book insists on its political character showing how temporal norms structure identities possibilities and inequalities and how they might be reimaged *Professional Journal of the United States Army*, 2014-07
Russia's Posture in Space Marco Aliberti, Ksenia Lisitsyna, 2018-06-13 The book sheds new lights on the evolution of Russian space activities with a focus on their strategy of international cooperation This analysis is carried out in relation to the evolution of the domestic and international dynamics that have been impacting the country s direction in space with the ultimate goal of providing an assessment on their impact for current and foreseeable Europe Russia space relations Russia has traditionally been one of the two main strategic partners for Europe in its space endeavor Hitherto long standing cooperation has been nurtured between the two actors in various areas from scientific research to space transportation and human spaceflight In recent years however a number of endogenous and exogenous developments has triggered significant

changes in Russia's space posture These changes are evident in the adjustment of Russia's space policies and programmatic goals in the restructuring of the domestic space industry as well as in the attitude towards international space partnerships
