**Prophetic Figures of the Old Testament** Nyamayabo Mashavakure,2014-12-22 There is nothing particularly new or unique about the subject matter of Prophetic Figures of the Old Testament In fact greater authorities have covered it better many times before and this endeavour is hugely reliant upon and indebted to these great minds for this current work The hope is that readers can enjoy more of what they have already had from many different quarters presented through a different hand It is also the hope that beginning learners of divinity or biblical studies can find this book greatly enjoyable and inspiring In the main the prophetic figures represented in the wording of the book title certainly refer to persons called or identifiable as prophets in the Bible But this is also extended to include some objects occurrences and places that prophets may have encountered and even made use of in the performance of their prophetic duties The interplay of these and the prophet is generally taken to signify the comprehensiveness or completeness of prophecy in this book The reader is invited to interrogate the relationship of the prophet and this environment in order to enjoy more fully the religious historical political intellectual and inspirational aspects one goes through in respect of the issues selected and commented on The reader is encouraged to think beyond what one reads Any statement or comment is not meant to be some kind of definitive prescription but is meant to arouse thought and more thought More important readers should always be in constant contact with the origin of the materials spoken about in this book that is the Bible There is obviously no way in which selective consideration of items picked on a rather random personal subjective basis can replace the source from which these are originally taken Reading of Prophetic Figures of the Old Testament should therefore always depend on knowledge of or familiarity with the background information provided in the Bible *Ancient and Indigenous Wisdom Traditions in African and Euro-Asian Contexts* Ehaab Abdou,Theodore Zervas,2024-08-01 This book brings attention to the understudied and often overlooked question of how curricula and classroom practices might inadvertently reproduce exclusionary discourses and narratives that omit or negate particular cultures histories and wisdom traditions With a focus on representations and classroom practices related especially to ancient and Indigenous wisdom traditions and cultures it includes unique contributions from scholars studying these questions in various contexts The book offers a range of important studies from key African and Euro Asian contexts including Afghanistan Albania Greece Iran South Africa Sweden T rkiye and Zimbabwe The various chapter contributions address and discuss nuances of each of the contexts under study The contributions also help highlight some key commonalities across these contexts including how dominant discourses and various forces have

historically shaped and continue to shape and reproduce such omissions misrepresentations and marginalization In addition to seeking to reconcile with some of these ancient and Indigenous wisdom traditions and cultures the book charts a path forward towards more holistic analytical frameworks as well as more inclusive and balanced representations and classroom practices in these aforementioned geographic contexts and beyond It will appeal to scholars researchers undergraduate and graduate students with interests in Indigenous education curriculum studies citizenship education history of education religion and educational policy
