In the world of fintech and artificial intelligence (AI), do we still need hedge funds? Tim Zähringer, Jose Carlos Villarreal Tovar, 2020-11-03 Seminar paper from the year 2020 in the subject Business economics Investment and Finance grade 1.3 Pforzheim University language English abstract In this paper we answer the question In the world of FinTech and AI do we need still hedge funds We describe and analyze how these

three subjects are connected and how they are changing the financial services ecosystem Are fintech companies and AI enemies from hedge funds Do these industries complement each other We hope this information is insightful and enjoy reading Today customers want the best products and services combined with the best user experience and last but not least they want options In other words they want it all and they want it now and for the financial services industry it may be the biggest challenge in history New generations of customers with unlimited access to information are now informed about the new technologies tools and products in a matter of minutes and they want to be a part of it A new breed of financial institutions called Fintech with a more technology driven infrastructure are fulfilling the customers wants and needs by taking advantage from new regulations created after the financial crisis of 2008 that made old traditional financial institutions expensive to operate and slower to innovate gave these innovative sometimes borderless fintech companies a competitive advantage Thanks to data and artificial intelligence AI customers have access to tailor made financial products and services not only in banking but also in areas like investing financial planning and advisory in an inexpensive but efficient way something that before was mostly available only for the rich and well connected people This made the financial industry in a way fairer and more transparent But there are some financial entities like hedge funds that are still reserved only for the wealthy investors These entities are famous due their unconventional ways to make money in the markets and bringing investors outstanding returns beating the market
