Tie Your Camel Syed Habeeb,2021-07-11 From the moment we wake up till the time we touchdown into our pillow all we really do is dream before we start dreaming again in the depth of our slumber The only difference between the dreams of the day and those of the night is that the former can be executed in absolute reality while the latter need to be deciphered Then why is it that most of the people around us fail to achieve the dreams they so passionately aspire to Turning the question around how do the few who achieve their dreams actually execute it to perfection Is it because the ones who aspire do not have the capabilities to achieve their dreams or the ones who achieve them consistently are specially gifted It is a popular saying that dreams that fly high need appropriate landing gears too This book is an attempt to share the best practices and strategies used by a few extraordinary people who convert their dreams into reality time and again This book is not a one size fits all goal setting book it s rather a focused intention to segregate giant goals from the minor ones and go all out to get them Tie Your Camel is almost a workbook that offers simple and proven steps to discover your GIANT GOALS that align with your personality and unveils the most inspiring ways to execute them
