**The Lowering of Higher Education in America** Jackson Toby, 2017-07-05 Few in the United States will dispute the assumption that every high school graduate should be entitled to go to college regardless of financial need But should everyone be able to go regardless of academic preparedness Jackson Toby explores the idea that federal financial aid programs all of which peg student aid to need alone and not to academic performance are dragging down college admissions and academic standards to the point where America's schools students and economy will no longer be globally competitive After a half century of teaching distinguished educator Jackson Toby concludes that our current system all too often gives both high school and college students the impression that college is an entitlement and not a challenge **The Lowering of Higher Education Why Student Loans Should Be Based on Credit Worthiness** is Toby's unflinching look at this broken system and the ways it can be fixed This volume documents just how far college admission standards have fallen and measures the cost of remedial programs designed to get underprepared high school students to the level they should have been at in the first place Toby is both pointed and frank in his discussion on the issue of grade inflation which rewards laziness while demoralizing hard working students To reverse the national decline of academic standards in American colleges Toby proposes a radical solution Let federal student aid be tied to academic performance as well as financial need incentivizing students to develop serious attitudes and study habits in high school and keep them up in college **USA Today Index**, 1996 **U.S. News & World Report**, 2005 **The USA TODAY College Football Encyclopedia 2008-2009** Bob Boyles, Paul Guido, 2008-08-04 The result of 15 years of exhaustive research this work is the definitive statistical and factual reference for everything related to college football in the past 50 years **America's Best Colleges**, 2008 **The Meritocracy Trap** Daniel Markovits, 2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy

Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people *The USA TODAY College Football Encyclopedia 2009-2010* Bob Boyles,Paul Guido,2009-08 The most comprehensive resource on college football ever published
