impact of social media and the internet on democracy in the members of the Association of Southeast Asian Nations that have already been in the throes of democratic regression for some time Including an analysis of countries that do not have national elections the chapters provide detailed information on the extent of internet and social media penetration in each country the laws that are deployed to reel in its political potential for critics and demonstrate the impact on democracy or the prospects for democracy Collectively contributors note that disinformation is a serious problem in the region that negatively impacts elections and how governments attempts to deal with the phenomenon inevitably lead to the targeting of dissenting voices and opposition as anti state fake news The deleterious impact on democracy and freedom of expression facilitated by a citizenry that is prone to manipulation of facts appears to be the standard modus operandi in the regional authoritarian complex This book is the first to undertake a regional analysis of disinformation in Southeast Asia and is a significant contribution to the literature on democracy elections and disinformation It will be of interest to researchers in the fields of Political Science and Asian Politics in particular Southeast Asian Politics
