Crash Course in Readers' Advisory
Cynthia Orr, 2014-12-05 One of the key services librarians provide is helping readers find books they'll enjoy. This crash course will furnish you with the basic practical information you need to excel at readers advisory (RA) for adults and teens. The question can you recommend a good book can be one of the most daunting you face notwithstanding the fact that recommender tools are ubiquitous. Often uncertainty arises because although librarians are called on to perform such services daily, readers advisory is a skill set in which most have no formal training. This guide will remedy that. It is built around understanding books, reading, and readers and will quickly show you how to identify reading preferences and advise patrons effectively. You'll learn about multiple RA approaches such as genre appeal, features, and reading interests, and about essential tools that can help with RA. Plus, you'll discover tips to help you keep up with this ever-changing field. There is no other professional book that covers the full spectrum of skills needed to perform the RA service that is in such great demand in libraries of all kinds. Helping readers find what they want is a sure way to serve patrons and build your library's brand. You will come away from this easy-to-understand crash course with the solid background you need to do both.

Young Adult Resources Today
Don Latham, Melissa Gross, 2014-05-21 Young Adult Resources Today: Connecting Teens with Books, Music, Games, Movies, and More is the first comprehensive young adult library services textbook specifically written for today's multidimensional information landscape. The authors integrate a research-focused information behavior approach with a literature-focused resources approach and bring together in one volume key issues related to research, theory, and practice in the provision of information services to young adults. Currently, no single book addresses both YA information behaviors and information resources in any detail; instead, books tend to focus on one and give only cursory attention to the other. Key features of this revolutionary book include its success in integrating theory, research, and practice; integrating implications for practice throughout the book; integrating knowledge of resources with professional practice as informed by research; integrating both print and electronic formats throughout within the resource chapters, including websites and social media. Latham and Gross accomplish all this while paying particular attention to the socially constructed nature of young adulthood, diversity, YA development, and multiple literacies. Their coverage of information landscapes covers literature with detailed coverage of both genres and subgenres, movies, magazines, web sites, social media, and gaming. The final chapter covers navigating information landscapes, focusing on real and virtual YA spaces, readers advisory programming, and collaboration. Special attention is paid to program planning and evaluation.

Intertextuality in Equiano. A Testimony of Rational Dissent Jonathan Vogel, 2023-10-17 Seminar paper from the year 2023 in the subject English Language and Literature Studies Other grade 1-7 University of Wuppertal Anglistik course Race and Gender 1770-1830 language English abstract At a time when morality has been increasingly separated from the aspect of the supernatural and placed within the human being himself far and foremost by philosophers like Jean-Jacques Rousseau Equiano tries to connect these two strands of thought He combines religious and enlightened ideals in order to form one coherent moral argument against the toleration of slavery In this paper I will analyse how intertextual elements more specifically explicit single text references are implemented by the author and how this can provide clarification on how Equiano is able to unite these two actually opposing world views in his argumentation Man was born free and he is everywhere in chains Those who think themselves the masters of others are indeed greater slaves than they Although Olaudah Equiano would probably have agreed to this statement and many other ideas by Rousseau he would not have quoted the French philosopher and forerunner of the Enlightenment in his *Interesting Narrative* If one were to arrange the individual years of human history according to the weight of the historical events the year 1789 would be assigned a special significance The worldwide sense of mission of the values of the French Revolution and the Declaration des Droits de l'homme et du Citoyen mark the culmination of an era in which the understanding of humanity and what it means to be human was redefined These maxims were the result of the assurance of a universal sense of right and wrong and the conviction that the individual's right to happiness was man's greatest purpose Moreover this body of thought was detached from the connection to a supernatural being but was rather based on a reliance on human sympathy or sentiment as the catalyst for moral choice and encouraged the belief that each individual had the power to control his or her own destiny

The time was marked by a philosophical shift from rigid theology to the values of Deism and moral naturalism
