Abstract—This paper serves the purpose of reviewing and summarizing Qualitative research Method and investigating its structure, and different types of Data Collection and Data Analysis methods. A review centric research has been conducted, reviewing existing literature in order to accomplish a basic understanding of the topic and all factors associated within this paper. The research only focuses on the concept of Qualitative research method, and the procedures behind it. Furthermore, we discussed in short four different data collecting methods, and three data analysis techniques. Due to the nature of this paper as a summary paper, it is not possible to cover all data collection and data analysis methods. All data and opinions are collected from 30 different articles, and previous research papers. The results and findings of this paper serve as a brief discussion of existing literature, and this paper maybe applied as a summary reference for students and other learners. This paper represents a new referring article for seekers who are willing to enhance their understanding regarding qualitative research method, and Data collection and Data analysis techniques.

I. INTRODUCTION

In order to be able to put together a research paper, you need to fully understand what is a research method, how is it structured and the purpose of research methods, both generally, and specialized in any scientific field. Linguistically, and according to Cambridge Dictionary Online, research method is a particular way of studying something in order to discover new information about it or understand it better.

Research is a one type of knowing, Epistemology which is the philosophical theory of knowledge, the philosophy of investigating information in order to categorized it correctly, either under opinions, or beliefs. Epistemology identifies different sources of knowledge which are:

- Intuitive knowledge: Based on belief, faith, and doesn't rely on hard facts
- Authoritative knowledge: Based on information gathered from people in forms of word of mouth or books

- Logical Knowledge: Based on reasoning and advancing from the initial point to the new knowledge point

- Empirical knowledge: Based on demonstrable objective facts, relying on observations and experimentation

Our modern day research use all the four ways of accomplishing knowledge, and lay the basics steps of research, initial idea of research, reviewing previous literature, processing information through certain procedure, and finally finding and conclusions.

Research is well-arranged and systematic way of finding answers and explanations to various topics and questions that one might ask. Research is organized in a sense that there is a certain plan and specific structure that headlines scope of the research. Also, it is systematic because there are a well defined steps and procedures which you have to follow during the research process in order to be able to collect the most precise results, and find the answers the scholar is seeking at the end of the research. Keeping in mind, that research results can be simply a clear statement, hypothesis, or sometimes even a question that believe to be the goal of an extended research paper. With the help of research, we achieve progress in science; we pick up from what other scholars left and move toward advancement. If we have no question to answer, there is no focus in the research, thus there is no use.

Research is basically divided into three basic categorize, which are:

Basic research

Applied research

Practical Research

Basic research is only focusing on the theory, doesn't necessarily yield any practical usefulness. Calvert [1] defines basic research "Basic research is often used in science policy. It is commonly thought to refer to research that is directed solely toward acquiring new knowledge rather than any more practical objective [1] p. 199". In the other hand, applied research is focusing on how we can turn the findings of the research to an applied method of teaching. Lastly, practical research focuses on actually applying the findings to a certain practical teaching situation.

There is cumulative theories and researches about Supply Chain and important factors e.g.[2-11] as the

The Top Books of the Year Qualitative Research Method Summary Jmest The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the fascinating narratives that have charmed audiences this year. Qualitative Research Method Summary Jmest : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Qualitative Research Method Summary Jmest : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
