Unification From courtrooms to television screens and mafia dons to political activists this volume delves into Italy's criminal patrimony as well as the entanglements between Italian politics and organized crime how ideas about crime and criminality cross borders and become attached to people and how the representational force of the media continues to transform who or what is marked as criminal This volume reconnects Italy to its heritage of crime and punishment to offer a new take on modern Italian identity that recognizes its relationship to illegality as a central rather than peripheral attribute
