

## **Project Proposal** **CSE 403 – Software Engineering**

Richard Pan (brdmstr), Ajay Menon (amenon), Abdelalah Salama (engobada), Nikhil Karkarey (nkhilk)

### **Introduction**

Most of the calendars and planner applications available today only display a schedule which the user has manually planned. They do not offer any smart scheduling or schedule optimizing features to assist the user in planning their day, by presenting the user with an optimized itinerary. For our project, we propose the development of a smart day planner application, which provides the user with an optimized schedule, taking into account various constraints like appointment times, activity durations, activity locations, travel modes and distances.

### **Objectives**

- To provide an easy to use application that acts like a personal assistant by providing user with an optimally planned day schedule.
- Optimize schedules taking into account various user constraints as well as other information like location of activities, their duration, and travel times depending on mode of transport (driving, cycling, and walking).
- Provide flexibility by re-computing an optimized schedule to accommodate change in plans by user.
- Provide access to schedule anytime and anywhere by syncing the day's schedule with a central server.
- Provide a web interface and/or Android phone application.

### **Target Customers**

- Busy Parents – Both working and stay at home parents need to juggle various activities throughout the day, like work, children's activities, groceries, gym, etc.
- Students – In addition to school schedule, students also have to manage their extracurricular activities, work, social life, etc.

### **Value Proposition**

This application fills the need of having a tool that plans and optimizes your schedule so that you can be more productive by focusing on the tasks at hand, and not be burdened with the details of planning. The absence of any schedule optimizing tools in the market will put this application in a unique position.

### **Application Features and Description**

Requires user to sign in to access the tool via a web page (or Android application).

The user provides the events or task that need to be completed during a day. For each task/event the user provides following information which allows the system to build a schedule and optimize it:

- A name/title for the task or event
- Start time of the event, if it is not flexible
- Expected duration of the task
- Location of the task/event
- Priority of event on a scale of 1-5
- The time that the user wishes to start and end their day with a possible "all nighter" option

**1998 International Conference Software Engineering: Education & Practice** Martin Purvis, Stephen Cranefield, Steve MacDonell, 1998

**Engineering Education** John Heywood, 2006-01-24 A synthesis of nearly 2 000 articles to help make engineers better educators While a significant body of knowledge has evolved in the field of engineering education over the years much of the published

information has been restricted to scholarly journals and has not found a broad audience This publication rectifies that situation by reviewing the findings of nearly 2 000 scholarly articles to help engineers become better educators devise more effective curricula and be more effective leaders and advocates in curriculum and research development The author s first objective is to provide an illustrative review of research and development in engineering education since 1960 His second objective is with the examples given to encourage the practice of classroom assessment and research and his third objective is to promote the idea of curriculum leadership The publication is divided into four main parts Part I demonstrates how the underpinnings of education history philosophy psychology sociology determine the aims and objectives of the curriculum and the curriculum s internal structure which integrates assessment content teaching and learning Part II focuses on the curriculum itself considering such key issues as content organization trends and change A chapter on interdisciplinary and integrated study and a chapter on project and problem based models of curriculum are included Part III examines problem solving creativity and design Part IV delves into teaching assessment and evaluation beginning with a chapter on the lecture cooperative learning and teamwork The book ends with a brief insightful forecast of the future of engineering education Because this is a practical tool and reference for engineers each chapter is self contained and may be read independently of the others Unlike other works in engineering education which are generally intended for educational researchers this publication is written not only for researchers in the field of engineering education but also for all engineers who teach All readers acquire a host of practical skills and knowledge in the fields of learning philosophy sociology and history as they specifically apply to the process of engineering curriculum improvement and evaluation

*Software Engineering with Student Project Guidance* Barbee Teasley Mynatt,1990 **Theory and Practice of Computation** Shin-ya

Nishizaki,Masayuki Numao,Merlin Suarez,Jaime Caro,2020-12-10 This book provides a collection of papers from the Ninth Workshop on Computing Theory and Practice WCTP 2019 devoted to theoretical and practical approaches to computation which was organized by four top universities in Japan and the Philippines Tokyo Institute of Technology Osaka University the University of the Philippines Diliman and De La Salle University The proceedings provide a broad overview of recent research trends in computer science research in Asia particularly in these two countries The papers included in the proceedings focus on both theoretical and practical aspects of computations such as programming language theory modeling of software systems applications of machine learning empathic computing and various applications of information technology

**Computer-Supported Collaborative Learning: Best Practices and Principles for Instructors** Orvis, Kara L.,Lassiter, Andrea L.R.,2008-01-31 Decades of research have shown that student collaboration in groups doesn t just happen rather it needs to be a deliberate process facilitated by the instructor Promoting collaboration in virtual learning environments presents a variety of challenges Computer Supported Collaborative Learning Best Practices Principles for Instructors answers the demand for a thorough resource on techniques to facilitate effective collaborative learning in virtual

environments This book provides must have information on the role of the instructor in computer supported collaborative learning real world perspectives on virtual learning group collaboration and supporting learning group motivation

### Software Engineering Project Proposal Sample Introduction

Software Engineering Project Proposal Sample Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Software Engineering Project Proposal Sample Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Software Engineering Project Proposal Sample : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Software Engineering Project Proposal Sample : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Software Engineering Project Proposal Sample Offers a diverse range of free eBooks across various genres. Software Engineering Project Proposal Sample Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Software Engineering Project Proposal Sample Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Software Engineering Project Proposal Sample, especially related to Software Engineering Project Proposal Sample, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Software Engineering Project Proposal Sample, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Software Engineering Project Proposal Sample books or magazines might include. Look for these in online stores or libraries. Remember that while Software Engineering Project Proposal Sample, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Software Engineering Project Proposal Sample eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Software Engineering Project Proposal Sample full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer

subscription-based access to a wide range of Software Engineering Project Proposal Sample eBooks, including some popular titles.

### **FAQs About Software Engineering Project Proposal Sample Books**

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Software Engineering Project Proposal Sample is one of the best book in our library for free trial. We provide copy of Software Engineering Project Proposal Sample in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Software Engineering Project Proposal Sample. Where to download Software Engineering Project Proposal Sample online for free? Are you looking for Software Engineering Project Proposal Sample PDF? This is definitely going to save you time and cash in something you should think about.
