Rance Cleaveland, 2003-05-21 ETAPS 99 is the second instance of the European Joint Conferences on Theory and Practice of Software ETAPS is an annual federated conference that was established in 1998 by combining a number of existing and new conferences This year it comprises five conferences FOSSACS FASE ESOP CC TACAS four satellite workshops CMCS AS WAGA CoFI seven invited lectures two invited tutorials and six contributed tutorials The events that comprise ETAPS address various aspects of the system development process including specification design implementation analysis and improvement The languages methodologies and tools which support these activities are all well within its scope Diverse blends of theory and practice are represented with an inclination towards theory with a practical motivation on one hand and soundly based practice on the other Many of the issues involved in software design apply to systems in general including hardware systems and the emphasis on software is not intended to be exclusive Creative Solutions for a Sustainable Development Yuri Borgianni, Stelian Brad, Denis Cavallucci, Pavel Livotov, 2021-09-15 This book constitutes the refereed proceedings of the 21st International TRIZ Future Conference on Automated Invention for Smart Industries TFC 2021 held virtually in September 2021 and sponsored by IFIP WG 5.4 The 28 full papers and 8 short papers presented were carefully reviewed and selected from 48 submissions They are organized in the following thematic sections inventiveness and TRIZ for sustainable development TRIZ intellectual property and smart technologies TRIZ expansion in breadth and depth TRIZ data processing and artificial intelligence and TRIZ use and divulgation for engineering design and beyond Chapter Domain Analysis with TRIZ to Define an Effective Design for Excellence is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com) **The Cache Coherence Problem in Shared-Memory Multiprocessors** Igor Tartalja, Veljko Milutinović, 1996-02-13 Almost all software solutions are developed through academic research and implemented only in prototype machines leaving the field of software techniques for maintaining the cache coherence widely open for future research and development This book is a collection of all the representative approaches to

software coherence maintenance including a number of related efforts in the performance evaluation field The book presents a selection of 27 papers dealing with state of the art software solutions for cache coherence maintenance in shared memory multiprocessors It begins with a set of four introductory readings that provides a brief overview of the cache coherence problem and introduces software solutions to the problem The text defines and illustrates static and dynamic software schemes techniques for modeling performance evaluation mechanisms and performance evaluation studies The book is intended for the experienced reader in computer engineering but possibly a novice in the topic of cache coherence It also provides an in depth understanding of the problem as well as a comprehensive overview for multicomputer designers computer architects and compiler writers In addition it is a software coherence reference handbook for advanced undergraduate and typical graduate students in multiprocessing and multiprogramming areas

Theory and Applications of Satisfiability Testing Fahiem Bacchus, Toby Walsh, 2005-06-02 The 8th International Conference on Theory and Applications of Satisfiability Testing SAT2005 provided an international forum for the most recent research on the satisfiability problem SAT SAT is the classic problem of determining whether or not a propositional formula has a satisfying truth assignment It was the first problem shown by Cook to be NP complete Despite its seemingly specialized nature satisfiability testing has proved to be extremely useful in a wide range of different disciplines both from a practical as well as from a theoretical point of view For example work on SAT continues to provide insight into various fundamental problems in computation and SAT solving technology has advanced to the point where it has become the most effective way of solving a number of practical problems The SAT series of conferences are multidisciplinary conferences intended to bring together researchers from various disciplines who are interested in SAT Topics of interest include but are not limited to proof systems and proof complexity search algorithms and heuristics analysis of algorithms theories beyond the propositional hard instances and random formulae problem encodings industrial applications solvers and other tools This volume contains the papers accepted for presentation at SAT 2005 The conference attracted a record number of 73 submissions Of these 26 papers were accepted for presentation in the technical programme In addition 16 papers were accepted as shorter papers and were presented as posters during the technical programme The accepted papers and poster papers cover the full range of topics listed in the call for papers

Applied XML Solutions Benoît Marchal, 2000 Artful Making offers the first proven research based framework for engineering ingenuity and innovation This book is the result of a multi year collaboration between Harvard Business School professor Robert Austin and leading theatre director and playwright Lee Devin Together they demonstrate striking structural similarities between theatre artistry and production and today's business projects and show how collaborative artists have mastered the art of delivering innovation on cue on immovable deadlines and budgets These methods are neither mysterious nor flaky they are rigorous precise and with this book's help absolutely learnable and reproducible They rely on cheap and rapid iteration rather than on intensive up front planning and with the help of today's

enabling technologies they can be applied in virtually any environment with knowledge based outputs Moreover they provide an overarching framework for leveraging the full benefits of today s leading techniques for promoting flexibility and innovation from agile development to real options

The C++ Answer Book Tony L. Hansen,1990 This book exposes the design portability and efficiency of C programs while solving the exercises found in the definitive C reference The C Programming Language by Bjarne Stroustrup Providing complete working solutions to each exercise and with strict attention to both efficiency and portability Hansen has produced an excellent source of tested usable and documented C code C was designed and implemented as a superset of C which retains the efficiency and notational convenience of C while providing facilities for type checking data abstraction operator overloading and object oriented programming Up to the minute revisions to the C language are discussed in the text specifically the latest modifications available through Release 2.0 of C translator the newest features to the C language since the publication of Stroustrup s book The C Answer Book includes numerous examples and a significant amount of code which will assist all programmers who want to expand their applications of the C language Therefore this text is essential reading for students and professional programmers interested in the latest developments in C and provides models especially helpful for those learning the language on their own
