## Stem Kits Top Setup:

*How to Build a Kit Bike* Jonathan Wood, Timothy Remus, 2002-10 Scratch built motorcycles remain very popular. In order to simplify the process many companies in the American V twin aftermarket are selling kits. Three of these companies Custom Chrome, Arlen Ness and Biker's Choice have excellent programs. All offer very complete kits that allow the builder to assemble a complete motorcycle without any additional purchases. All that's missing is labor and paint. The book will document with detailed photos and copy the assembly from beginning to end of three motorcycles from the firms mentioned above. Because of the technical nature of this book there will be more images and less copy than in other Wolfgang Publication books. Each sequence will be illustrated by at least 200 images. Approximately 60% of these images will be in color. This book will also contain side bars on tools and basic assembly techniques all designed to aid the first time builder.

For nearly 30 years Devlin's Boatbuilding Manual has been walking backyard boat builders like you through the process of creating a beautiful seaworthy vessel with your own hands. This popular guide focuses on the stitch and glue process, a simpler, cheaper method than plank on frame and cold molded construction that produces the same stunning results. Now master boat builder Sam Devlin has updated his classic work with critical insights, information and refinements he has learned over the decades, including Step by step look at the process from start to finish. Tested new ideas to streamline the building process. New insights on stitch and glue building from the amateur's perspective. Additional materials and tools.
