navigate this transition and eventually disclose their new faith to Muslim relatives and communities Focusing on Somali converts living in the United Kingdom and Sweden the two European countries with the largest Somali immigrant populations the study sheds light on the complex and often precarious process by which individuals move from initial doubts to open commitment It not only traces the stages of this journey but also highlights the moral dilemmas intellectual challenges social dynamics and practical decisions that shape a convert s path By exploring both internal struggles and external pressures this book provides a rare and nuanced account of what it means to leave Islam for Christianity This volume will be of interest to scholars of religion and migration leaders in Muslim communities Christian workers ministering among Somali and other Muslim background populations as well as policymakers and human rights professionals How Somali Muslims Become Christians in Europe invites deeper reflection on the lived experience of religious freedom in contemporary societies
