Chudley and Greeno's Building Construction Handbook Roy Chudley, Roger Greeno, Karl Kovac, 2024-05-31 The 13th edition of

Chudley and Greeno's Building Construction Handbook remains THE authoritative reference for all construction students and professionals. The principles and processes of construction are explained with the concepts of design included where appropriate. Extensive coverage of building construction practice techniques and regulations representing both traditional procedures and modern developments are included to provide the most comprehensive and easy to understand guide to building construction. This new edition has been updated to reflect recent changes to the Building Regulations as well as including new material on modern methods of construction, greater emphasis on sustainability, health and safety and coverage of heat pumps, photovoltaics, underfloor heating and rainwater harvesting.

Chudley and Greeno's Building Construction Handbook is the essential easy to use resource for undergraduate and vocational students on a wide range of courses including NVQ and BTEC National through to Higher National Certificate and Diploma to Foundation and three year degree level. It is also a useful practical reference for building designers, contractors and others engaged in the construction industry.

Reinforced and Prestressed Concrete F. K. Kong, R. H. Evans, 1998-04. This highly successful textbook has been comprehensively revised for two main reasons to bring the book up to date and make it compatible with BS8110:1985 and to take into account the increasing use made of microcomputers in civil engineering. An important chapter on microcomputer applications has been added.
