*Strengthening Sustainable Digitalization of Asian Economy and Society* Ordóñez de Pablos, Patricia, Almunawar, Mohammad Nabil, Anshari, Muhammad, 2024-03-27 In the ongoing evolution of Asia's economy and society there is a crucial need to explore innovative conceptual frameworks empirical studies and case analyses These endeavors aim to unravel the intricate relationship between digital transformation and the imperative for fostering a greener more circular and climate neutral Asian economy *Strengthening Sustainable Digitalization of Asian Economy and Society* explores the intersection between digital technologies knowledge management and sustainable development The book addresses the challenges and opportunities the digital age poses examining how advanced information technologies including artificial intelligence IoT and machine learning coupled with practical knowledge management can catalyze a transformative journey *Strengthening Sustainable Digitalization of Asian Economy and Society* unravels how these digital tools and solutions impact the realization of the Sustainable Development Goals SDGs by 2030 offering invaluable insights for academics researchers industry players policymakers and stakeholders This book emphasizes the ASEAN region providing an understanding of the regional nuances in the digital transition by presenting comparative regional studies including Asia Europe the USA Latin America Africa and the Gulf Region

*China's Foreign Investment Law in the New Normal* Shen Wei, 2022-12-29 This book analyzes China's new foreign investment law which came into force in January 2020 The new law implemented sweeping changes and overhauled China's foreign investment law regime of the last four decades The foreign investment law aims to make the business environment more investor friendly and address some of the contentious issues between US and China in the ongoing trade war The book explains how the law enhances regulatory transparency It also outlines the new approval process that is the pre-establishment negative list system which has replaced the former approval system for foreign investment projects The book also analyzes China's series of anti-sanction laws This book will help give readers a better understanding of major changes and benefits under the new law and will be the first of its kind looking at the implications of this important law

*Internet Memes and Copyright Law* Brian Chun Lok Leung, 2025-09-30 This book explores the intricate relationship between copyright law and internet meme culture challenging an assumption that copyright is a barrier to digital creativity Using the lens of internet memes to analyse copyright law in the context of participatory remix culture the book confronts a common perception that copyright is the destroyer of internet memes on social media platforms Following the European Union's Copyright Directive widely known as the Meme Ban this book critically examines whether copyright might instead be reimagined to foster rather than inhibit re-creations that define internet meme culture The book argues that this culture directly challenges copyright's core assumptions and proposes a new holistic approach to copyright that distinguishes between traditional and emergent forms of creative processes Arguing for a flexible interpretation of copyright that limits private proprietary rights in the case of internet memes it provides a legal framework to support socio-cultural

discourse without undermining copyright's foundational principles. Covering core copyright concepts such as authorship, idea, expression, originality, fair dealing, and user rights, the book provides a compelling argument as to how copyright can adapt to the digital age as a protector of cultural expressions, ensuring that internet memes are not only preserved but celebrated. The book will be of interest to researchers in the field of copyright law, the law of emerging technologies, and intellectual property law.

**Cyber Law and Ethics** Mark Grabowski, Eric P. Robinson, 2021-07-12. A primer on legal issues relating to cyberspace, this textbook introduces business policy and ethical considerations raised by our use of information technology. With a focus on the most significant issues impacting internet users and businesses in the United States of America, the book provides coverage of key topics such as social media, online privacy, artificial intelligence, and cybercrime, as well as emerging themes such as doxing, ransomware, revenge porn, data mining, e-sports, and fake news. The authors' experience in journalism, technology, and legal practice provide readers with expert insights into the nuts and bolts of cyber law.

**Cyber Law and Ethics: Regulation of the Connected World** provides a practical presentation of legal principles and is essential reading for non-specialist students dealing with the intersection of the internet and the law.

**Proceedings of The 11th European Conference on Social Media** Susana Pinto, 2025-06. The European Conference on Social Media (ECSM) is a well-established academic conference held annually for over a decade with a focus on advancing research and dialogue around social media. The primary aim of ECSM is to provide a platform for scholars, researchers, practitioners, and industry professionals to share and discuss their findings on the multifaceted impacts of social media. The conference emphasises the importance of understanding how social media influences various sectors, including society, education, business, and governance.

**International Marketing** Michael A. Merz, 2025-06-04. This comprehensive text provides students with a solid foundation in international marketing theory, research, and practice. Fully updated throughout, the book covers all the latest trends and topics, including e-commerce, digitalization, corporate sustainability, business ethics, corporate social responsibility, cryptocurrency, and the broader political and economic context. New international case studies and mini cases from the US, Europe, China, and Japan are incorporated alongside enhanced pedagogy to structure learning, such as chapter objectives, summaries, and discussion questions. Placing a unique emphasis on the importance of academic research, all academic references and marketing theories have also been updated. Demonstrating the complexities of marketing on a global scale, this well-regarded text should be core reading for advanced undergraduate and postgraduate students of international and global marketing, marketing management, and strategic marketing. Online resources include chapter-by-chapter PowerPoint slides, a test bank, cases, and discussion questions, and videos to accompany specific topics.

**Governing Cross-Border Data Flows** Svetlana Yakovleva, 2024-02-27. *Governing Cross-Border Data Flows* explores how the European Union can simultaneously reconcile and pursue two important legal and policy objectives: namely, protecting fundamental rights guaranteed under the EU Charter of Fundamental Rights (EU Charter) concerning privacy and personal data, while also

maintaining and developing a binding rules based global trading system to ensure appropriate access to foreign digital markets for EU businesses The book demonstrates a significant conflict between international trade law and European data privacy law when it comes to the governance of cross border flows of personal data To resolve the tensions caused by this clash the book proposes concrete and detailed ways to ameliorate the situation from both ends international trade and personal data protection specifically through reforms of both international trade and chapter V of the General Data Protection Regulation GDPR To explain how such reforms could be effectuated Yakovleva examines the role of discourse in the evolution of trade law in the last two decades The book also paves the way for the further research necessary to design a fully fledged reform proposal of the EU framework for the transfer of personal data outside the European Economic Area

*Four Battlegrounds* Paul Scharre, 2023-02-28 An NPR 2023 Books We Love Pick One of the Next Big Idea Club's Must Read Books An invaluable primer to arguably the most important driver of change for our future P W Singer author of *Burn In* An award winning defense expert tells the story of today's great power rivalry the struggle to control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future *Four Battlegrounds* argues that four key elements define this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre's account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China's National Team of leading AI companies to show the chilling synergy between China's government private sector and surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct *Four Battlegrounds* offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order

**The Fourth Intelligence Revolution** Anthony Vinci, 2025-10-28 A former senior intelligence officer reveals how espionage is being transformed by a new global intelligence race driven by AI and

competition with China and how this impacts all of our lives The new global intelligence competition has brought espionage into our workplaces and our living rooms Adversaries like China Iran and Russia have realized that the human element is the weakest link in our industrial and political infrastructure As a result they target all of us stealing our financial data and medical records eavesdropping on our conversations and using platforms like TikTok and Hollywood movies to influence our opinions The Fourth Intelligence Revolution reveals how the undercover adventures of World War II the spy versus spy confrontations of the Cold War and the find fix and finish counterterrorism missions after 9 11 have given way to the most dangerous period of espionage yet This eye opening account exposes how intelligence now permeates every corner of society from economic espionage and genetic data gathering to information operations targeting children through AI chatbots even extending to reconnaissance on the far side of the moon Both a warning and a call to action The Fourth Intelligence Revolution suggests that we are all in essence becoming intelligence officers and that citizens have both the power and responsibility to reclaim intelligence to safeguard and strengthen our democracy
