The Private Justice Gap Célia Filipa Ferreira Matias,2026-03-31 This book examines how private justice challenges the state's monopoly on adjudication with a particular focus on today's digital contexts The author contends that private interventions can be legitimate expressions of justice rather than threats to it and argues for a nuanced approach This applies when such interventions respond to genuine injustices and meet the criteria of suitability necessity and proportionality while respecting fundamental ethical boundaries By proposing a framework for private justice defence the book explores how this stance could bridge the gap between public and private justice systems fostering greater collaboration between citizens and the state By acknowledging the role of private adjudication in rectifying injustices the book advocates a legal landscape that empowers

individuals to act in the service of justice while upholding core principles of fairness and cooperation The book will appeal to scholars of legal theory and law and technology

Reframing Transitional Justice Mark A. Drumbl, Kirsten J. Fisher, 2026-04-20 This book challenges the simplicity predestination and self evident nature of contemporary narratives of transitional justice Transitional justice is the field of study that examines how states should reckon with massive human rights abuses The book upends these assumptive narratives on three crucial fronts The first front is that of innovations Here the book questions the ability of transitional justice to deliver tangible successes in an era of rapid and overwhelming technological change and contestation over what constitutes human memory communicative dialogue and reliable evidence The second front involves boundaries Here the book confronts the professed superpower of transitional justice to do more and more in an endless concatenation of additives While there is cause for optimism this book also suggests that transitional justice remains awkward in how it copes

with the existential pressures of environmental health and cultural crises On its third front refractions this book identifies how transitional justice addresses racism misogyny and democratic backsliding How the prism of transitional justice interventions refracts these scourges remains inadequate Throughout the book asks readers to imagine where the field and practice of transitional justice could go from here what new innovations are required what boundaries must be stretched or retrenched and what perspectives need to be considered due to new ways of seeing current and past atrocities Accordingly this book will be of considerable interest to academics practitioners working on post conflict reconstruction and students at all levels ranging from undergraduate to post doctoral in the areas of law politics cultural property criminology human rights international relations and technology studies

Business, Human Rights, and the Law Maciej Gajos, 2026-03-13 This book explores how the rules of international responsibility can be applied to cases of human rights violations involving multinational corporations The work invites readers to reflect on why international law fails in the context of business related human rights abuses and at the same time how its potential can be harnessed to restore its adequacy in relation to this issue It proposes a model of international responsibility that seeks to close accountability gaps related to corporate activities Since the model addresses such issues as who bears responsibility for what where it is determined and by whom as well as what its consequences are it offers a holistic perspective on the problem of business related human rights abuses This approach translates into a comprehensive mapping of the relevant sources of norms that govern the conduct of actors contributing to abuses and the available grievance mechanisms The book engages with the recent developments in the field such as the adoption of mandatory human rights due diligence laws in a number of states and the EU as well as the ongoing business and human rights treaty negotiating process at the UN level It also offers an overview of salient cases in this area before both international and domestic courts and tribunals The study will be of interest to academics researchers and policy makers working in the areas of international human rights law business and human rights and law and society

Introduction to Information Systems, International Adaptation R. Kelly Rainer, Brad Prince, 2022-07-13 Introduction to Information Systems 9th Edition delivers an essential resource for undergraduate business majors seeking ways to harness information technology systems to succeed in their current or future jobs The book assists readers in developing a foundational understanding of information systems and technology and apply it to common business problems This International Adaptation covers applications of the latest technologies with the addition of new cases from Europe Middle East Africa Australia and Asia Pacific countries It focuses on global business environment for students to understand the norms of using technology while operating on online platforms for exploring new avenues in different geographical locations The book includes real business scenarios of how latest technologies such as Big Data Cloud Computing Blockchain and IoT are perceived and adopted across countries New cases highlight key technology issues faced by organizations such as designing and implementing IT security policies dealing with ethical dilemma of securing customer data moving IT infrastructure to cloud and identifying how AI can

be used to improve the efficiency of business operations
