Global Business Today Global Edition 8e Charles Hill, 2014-09-16 Global Business Today has been developed specifically to meet the needs of international students of business. Written in a refreshing, informative, and accessible style, it has become the most widely used text in the International Business market with its comprehensive and up-to-date contents. Enhancements to the Global Edition include New Country Focus boxes that provide background on the political, economic, social, or cultural aspects of countries grappling with an international business issue to help raise students' awareness of how national and geographic differences affect the conduct of international business, such as Corruption in the Philippines and the Export Processing Zone Authority of Pakistan. New Management Focus boxes provide lively illustrations of the relevance of chapter material for the practice of international business, including Patenting Basmati Rice and Expatriate Managers. New Perspective boxes provide additional context for chapter topics such as Market Economy in China, Australian SMEs Embrace the Chinese Currency, and Global Variations in Ownership Structure.

The Four Competitive Business Drivers Jorge Sá, Magda Pereira, 2026-01-13 Sometimes management books achieve a clear-cut distinction between strategy and tactics. Seldom do they include the business model as a third competitiveness driver. And never so far has the theory of business been considered as a fourth required performance vector, different from all other three. However, organizational optimization requires all four: the why, where, what, and how. The theory of business, Drucker, is the why; the company makes sense. The reality assumptions, the organization is grounded upon, What it is paid for, The business model, Porter, is the what; the basic pillars of a firm's organization. How it transforms client satisfaction into value for itself, Strategy, Joffe, is the where; the choice of 1 geographical areas, 2 industries, and 3 within them of segments. And tactics, is the how, respecting to the nine functional areas from marketing, Kotler, to human resources, to how to advertise, how to motivate, etc. Four inferences follow. All four drivers are necessary conditions, none sufficient. They interrelate, some impacting on others. They must fit, reinforcing each other, and they should be periodically reviewed under a sequence of steps. This is illustrated by the book's detailed examples of e.g. Nike, Dollar Shave Club, Spotify, SpaceX, Vend me, Sears, IBM, Apple, Music, McDonald's, Marks Spencer, Canva, SolarCity, Farfetch, etc. The fundamental message is that neglect of any of the four drivers brings inefficiency, doing things right, the Phronesis of Aristotle, at the cost of lower effectiveness, doing the right things, the Chokhmah of Solomon. With more and more resources producing less and less underperformance will follow.
