Tiktok Compare Customer Service:

B2B Customer Engagement Strategy Daniel D. Prior, 2023-04-03 Business to business B2B transactions account for 60-70% of all transactions globally. Considering this, many supplier firms aspire to create high levels of customer engagement, and this involves identifying various ways to improve customer experience. In fact, companies such as Google, Amazon, Microsoft, and others now employ professionals in customer engagement roles and dedicate entire corporate divisions to ensure seamless customer engagement. Creating high customer engagement is challenging without a cohesive strategic approach, particularly in B2B markets. This textbook introduces students to customer engagement strategy in B2B markets, the foundation of which is customer engagement capability. Companies must develop and implement four sub-capabilities: customer journey management, customer relationship management, customer communications, and data analytics and insight to succeed. With a myriad of case studies, discussion questions, and prompts for further reading, the textbook translates theory into practice and serves as a useful foundation for executive courses as well as fundamental reading for masters-level specialist courses in customer engagement, marketing, sales, and strategy. In addition, practitioners in supplier firms will also be able to use it to build their customer engagement capability.

Knockout Customer Service puts a fresh twist on a well-discussed topic. There are tons of books on customer service; this is the first to compare customer service and training for customer service to boxing. Knockout Customer Service reveals a unique Customer Service Boxing Model to demonstrate the relationship between training and coaching. It quotes some of the most famous names in boxing and recalls historical fights using analogies of the fundamentals of boxing to the fundamentals of customer service. The book also provides insight for defusing irate customers, leveraging employees' experience, and developing an overall customer service strategy.
