[Artificial Intelligence \(A.I.\) for Kids: The Abiotic Brain](#) Singh,2017-08-16 The vision of artificial intelligence replacing human professional judgment has arisen many times in the history of the field and today in some specialized areas where expert systems are used to augment or to replace professional judgment in some areas of engineering and of medicine More than two centuries ago the Industrial Revolution was the most significant event in the human history since the domestication of animals and plants leading to five

decades of growth and development making the western world almost unrecognizable Today the pace with which this disruptive technological revolution aided by AI is engulfing the humanity is not just swift but almost exponential In every decade and with much faster frequency in the days to come we are wiping out our own inventions and innovations by terming them as obsolete The rise of powerful AI will be either the best or the worst thing ever to happen to humanity We do not yet know which Stephen Hawking The greatest risks that AI poses to companies probably lie less in its potential for disruption and more in the unknowns surrounding it Scientists and academics sat up and took notice in 2016 when Alpha Go Google DeepMind s AI driven computer won its five match series against Lee Sedol the reigning world champion in Go the ancient Asian board game Humans didn t teach the computer it taught itself how to master the game by playing it millions of times with another computer through a set of techniques called deep learning and independently responded to Mr Lee s moves

Artificial Intelligence Dr. Prabhat Kumar, 2019-09-19 Learn how Artificial Intelligence AI strikes deeper roots with new products and services DESCRIPTION Our World of personal life and work is set to change dramatically over the next decade as Artificial Intelligence AI strikes deeper roots with new products and services robots take charge of manufacturing and warehouses and drones reach the remote corners to deliver orders to customers AI services and robots will particularly facilitate the life of the older people and the visually impaired AI has raised the bar of competition in the international market place and countries are busy implementing policies that will keep them ahead in the race of the next generational change AI will raise the productivity of the economy and provide a lot more convenience though there is bound to be a short term pain in the transformational process This book explains the concepts of AI with lots of real life examples While the big tech companies like Alphabet Amazon Apple Facebook IBM Microsoft 3AFIM of the US and Alibaba Baidu JD com Tencent ABJY of chine are busy re fashioning their businesses by integrating AI into all products and services they deliver startups on the other hand are disrupting the traditional business models in finance e commerce healthcare HR management fashion law and even agriculture AI driven smart cities would provide a richer quality of living to their residents This book also provide an insight into various social and ethical issues such as monopoly of the big tech ownership of data personal privacy job losses and autonomy of technology particularly in military warfare which poses an existential threat to mankind Future of AI is also discusses taking a 360 degree approach AI offers a huge economic opportunity but a thoughtful approach for democratization of technology is required to provide benefits to all sections of the society Nations and communities need to come together to evolve models that will be sustainable in the long run KEY FEATURES The book gives a lucid introduction to the idea of AI The book is insightful for an academic understanding of AI in the concept of Legal Personality meant for every person including professionals in the field of Technology Finance Healthcare HR Management Agriculture The book gives a idea about many new AI products and services being released in the market The book presents various social ethical and political challenges including significant risk to humanity WHAT WILL YOU LEARN Able to solve real life AI case studies
