data and your job may be among the countless others being lost to AI at record rates. Because of this abuse of technology among many others, most people have lost all agency over their technology devices and information. But technologist William Welser IV has a plan to help us regain control. Enter *The Story Economy*, a guide that provides fresh purchasing power in a world where opportunity feels harder and harder to grasp. Within Welser outlines the need for an alternative economy where stories can become solutions to overwhelming new problems. His entirely new marketplace allows us to use our stories as currency, putting the data we've voluntarily given to good use, allowing us to purchase goods and services and giving us the power to see exactly where our data is going and to whom. In this exciting and sometimes scary world of AI, Big Tech is using all of its tools against us to create a society in which we're lonely, broke, and lost. We must take back our power and make the technology work for us to close the healthcare, education, and wealth divide and in the process foster self-awareness to help us become astute decision makers and stay ahead of technology. With *The Story Economy*, Welser provides the innovative blueprint to get started.

This is an open access book. The position of Indonesia and most countries in IMF calculations facing the same challenges. Each country requires the legal instruments of a good and reliable system of Government to guard against the worst possible economic turmoil. Good governance is an insistence of the constitution in the economic Article 33 paragraph 5 subsequently published Constitution Number 30 Year of 2014 on Government Administration contains 17 principles of a good governance. One of the important points of the principle is a government without corruption and manipulation of policy concepts in order to provide access to consolidation in politics and economy. The latest Transparency International report for 2023 shows that Indonesia's corruption perception index was recorded at 34 points on a scale of 0-100 in 2022. This is a 4-point decrease from the previous year. This decline in the CPI also brought down the ranking of Indonesia's CPI globally. It was noted that Indonesia's CPI in 2022 ranked 110th. In the previous year, Indonesia's CPI was ranked 96th globally. Good Governance is all aspects related to the control and supervision of the power of the Government in carrying out its functions through formal and informal institutions. To implement the principles of Good Governance and Clean Government, the Government must implement the principles of accountability and efficient resource management. Good and clean governance will contribute to economic growth and economic growth will have an impact on human development. During the last decades of 20th century, the needs for a good governance has given some impacts and became a recurring theme in literature related to human development.
