Color Correction For Digital Video Pdf

Steve Hullfish, Jaime Fowler

Color Correction For Digital Video Pdf:

Color Correction Look Book Alexis Van Hurkman, 2013-12-12 The digital colorist's job is no longer to simply balance, fix, and optimize. Today's filmmakers often want to recreate the idiosyncrasies of older recording methods or are looking for something completely new to differentiate the look of a given project. Furthermore, end-to-end digital shooting, postproduction, and distribution means that stylizations and effects once created by the film lab are no longer photochemically available. The color grading suite has become the lab, and these sorts of stylizations are now part of the colorist's job description. In this follow-up volume to the bestseller *Color Correction Handbook*, Alexis Van Hurkman walks you through twenty-one categories of creative grading techniques designed to give you an arsenal of stylizations you can pull out of your hat when the client asks for something special, unexpected, and unique. Each chapter presents an in-depth examination and step-by-step, cross-platform breakdown of stylistic techniques used in music videos, commercial spots, and cinema. These customizable techniques can be mixed and matched for your own unique effects and include bleach bypass looks, cross-processing simulation, day-for-night treatments, emulating film stocks, flat looks, glows, blooms, and gauze looks, grain, noise, and texture, greenscreen compositing workflows, lens flaring and veiling glare, light leaks, and color bleeds, monitor and screen glow, monochrome looks, sharpening, tints, and color washes, undertones, vibrance, and targeted saturation, and many more. *Color Correction*

Handbook Alexis Van Hurkman, 2014 The colourist working in film and video is the individual responsible for breathing life into characters, bringing a mood into a scene, and making the final product polished and professional-looking. This craft is an art form that often takes years to perfect, and many trial and error attempts at getting it right. Here to help both the beginning and advanced level student who needs to brush up on their skills is the first book to cover a wide variety of techniques that can be used by colourists, no matter what system they're using. Whether you're using a video editing package with a colour correction tool built in (Final Cut Pro, Premiere Pro) or a dedicated application (DaVinci Resolve, SpeedGrade, or Assimilate Scratch), this book covers it all. From the most basic methods for evaluating and correcting an overall image to the most advanced, targeted corrections and creative stylizations typically employed, you'll find this highly organized book a solid reference that's easy to navigate. This completely revised edition will include three new chapters: postproduction workflow, around grading, stereoscopic grading, and on-set grading. Additional sections will include LOG media grading, LUTs, scene balancing with greenscreen, Log controls for contrast, and much more. **Lighting for Digital Video and Television** John

Jackman, 2020-06-10 This book gives a comprehensive overview of lighting equipment and techniques for digital production. Suitable for either beginners or more advanced users, the fully updated fourth edition covers human sight vs. film or video, the basic issues of contrast and exposure, with explanation of how exposure of digital video differs from analog video or film, electrical connectors, requirements, electrical load management, safety issues, and the latest LED systems. A variety of basic lighting setups for different situations are explained with clear diagrams and photos showing the look of each approach.

Techniques for shooting in available light and dealing with color problems in mixed lighting situations is examined More advanced film style lighting is covered especially techniques in creating a convincing realistic look A special section deals with solutions to common problems ranging from reflections on glasses and dealing with white walls to lighting very light skinned and very dark skinned subjects in the same shot Special lighting situations such as lighting night scenes or bluescreen sets are covered in detail with studio lighting covered in a dedicated separate chapter The book is also peppered with anecdotes and trivia about lighting techniques and the lighting trade It is the ideal text for both beginners studying lighting and cinematography as well as more advanced practitioners

The Color Correction Handbook Alexis Van Hurkman, 2010-11-15 The colorist working in film and video is the individual responsible for breathing life into characters bringing a mood into a scene and making the final product polished and professional looking This craft is an art form that often takes years to perfect and many trial and error attempts at getting it right Here to help both the newcomer and professional who needs to brush up on their skills is the first book to cover a wide variety of techniques that can be used by colorists no matter what system they re using Whether you re using a video editing package with a color correction tool built in Final Cut Pro Premiere Pro or a dedicated application Apple Color Assist Scratch Baselight or DaVinci this book covers it all From the most basic methods for evaluating and correcting an overall image to the most advanced targeted corrections and creative stylizations typically employed you ll find this highly organized book a solid reference that s easy to navigate The accompanying DVD contains footage as well as cross platform exercises and project files for readers to experiment with After reading the techniques readers will learn to apply the methods that all of the color correction applications use how to problem solve and trouble shoot how to maximize the effectiveness of each tool that s available and they will discover how to creatively combine techniques and tools to accomplish the types of stylizations that colorists are often called upon to create All of Peachpit s eBooks contain the same content as the print edition You will find a link in the last few pages of your eBook that directs you to the media files Helpful tips If you are able to search the book search for Where are the lesson files Go to the very last page of the book and scroll backwards You will need a web enabled device or computer in order to access the media files that accompany this ebook Entering the URL supplied into a computer with web access will allow you to get to the files Depending on your device it is possible that your display settings will cut off part of the URL To make sure this is not the case try reducing your font size and turning your device to a landscape view This should cause the full URL to appear
