Communal Politics Facts Versus Myths:

Communal Politics Ram Puniyani, 2003-04-25 This lucid and absorbing book explores many facets of communalism and its growing threat to the social fabric of the nation Ram Puniyani argues that one of the main reasons for the ascendancy of communal politics is the misconceptions and distortions spread by those bent upon constructing an identity based on suspicion and hatred These misconceptions or myths as the author calls them are drawn from different arenas such as history and culture and are built upon a partial projection of events and facts combined with a skewed assertion of norms and practices of the other community A mountain of hatred says the author is then built upon these totally selective facts which misinform and mould common perceptions Overall this fascinating book dispels in a novel and logical manner many distortions which have been responsible for arousing communal passions and which have created an external or enemy image of religious minorities and the socially disadvantaged Popular Culture in a Globalised India K. Moti

Gokulsing, Wimal Dissanayake, 2009-01-13 This book explores India's rich popular culture and provides illuminating insights into various aspects of the social cultural economic and political realities of contemporary globalised India It is essential reading for courses on Indian popular culture and a useful resource for more general courses in the field of cultural studies media studies history literary studies and communication studies **Human Rights and the Third World** Subrata Sankar

Bagchi, Arnab Das, 2012-12-06 Human Rights and the Third World Issues and Discourses deals with the controversial questions on the universalistic notions of human rights It finds Third World perspectives on human rights and seeks to open up a discursive space in the human rights discourse to address unresolved questions citing issues and problems from different countries in the Third World 1 Whether alternative perspectives should be taken as the standard for human rights in the Third World countries 2 Should there be a universalistic notion of rights for Homo sapiens or are we talking about two diametrically opposite trends and standards of human rights for the same species 3 How far these Third World perspectives of human rights can ensure the protection of the minorities and the vulnerable sections of population particularly the women and children within the Third World 4 Can these alternative perspectives help in fighting the Third World problems like poverty hunger corruption despotism social exclusion like the caste system in India communalism and the like 5 Can there be reconciliation between the Third World perspectives and the Western perspective of human rights **Lives of Muslims in**

India Abdul Shaban, 2018-01-10 The fast consolidating identities along religious and ethnic lines in recent years have considerably minoritised Muslims in India The wide ranging essays in this volume focus on the intensified exclusionary practices against Indian Muslims highlighting how amidst a politics of violence confusing policy frameworks on caste and class lines and institutionalised riot systems the community has also suffered from the lack of leadership from within At the same time Indian Muslims have emerged as a mass around which the politics of vote bank appeasement foreigners Pakistanis within the country and so on are innovated and played upon making them further apprehensive about asserting their

legitimate right to development The important issues of the double marginalisation of Muslim women and attempts to reform the Muslim Personal Law by some civil society groups is also discussed Contributed by academics activists and journalists the articles discuss issues of integration exclusion and violence and attempt to understand categories such as identity minority multiculturalism and nationalism with regard to and in the context of Indian Muslims This second edition with a new introduction will be of great interest to scholars and researchers in sociology politics history cultural studies minority studies Islamic studies policy studies and development studies as well as policymakers civil society activists and those in media and journalism

International Handbook of Inter-religious Education Kath Engebretson, Marian de Souza, Gloria Durka, Liam Gearon, 2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893 This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity

Terrorism Explained Ram Puniyani, 2013 Terrorism has been a very major phenomenon disturbing the peace of the planet today While acts of terror have been recorded in recent history from last several centuries this phenomenon has come to prominence from the ghastly tragedy of 9/11/2001 With this the American media popularized the word Islamic terrorism and worldwide this propaganda against Islam and Muslims picked up Al Qaeda a product of US policies to control of oil wealth in West Asia has been the major tormentor of people and its worst victims have been people of India and Pakistan Parallel with this the likes of Sadhvi Pragna Singh Thakur and Swami Aseemanand also came up with the goal of Bomb for a bomb and for pursuing the politics of Hindu Rashtra Nation This book is a graphic presentation of the whole issue It focuses on the definition of terrorism and the genesis of Al Qaeda through indoctrination in the specially set up Madrassa by America in Pakistan The phenomenon of Osama bin Laden and his support by US is presented in the book The book also takes up the theory of clash of civilization and its fallacies The series of blast from Nanded 2006 to Ajmer and Malegaon blasts are also analyzed The book demystifies the phenomenon of terror and shows that terrorism has nothing to do with religion but there are political goals behind the same

Judge,2005 The Sikh militant movement spanned one and a half decades during which a considerable loss of life occurred in and outside Punjab In terms of its spread it almost became international in character largely due to the presence of diaspora Sikhs in most of the western world This work is based on the analysis of the speeches and messages of the leaders of the militant movement It has been argued without essentializing the problematic that the nature of discourse of the militant movement could be traced back to the construction of Sikhism in the second half of the nineteenth century The ideology of the Singh Sabha movement and its attempt at the construction of singular religious identity provided the dynamics to the Sikh community In the process the religious tradition was invented which emphasized the singular Sikh identity by paving the way for the fundamentalist discourse of separatism The composite religious tradition in Sikhism was put at the margin of the community as a result of which it became possible to construct Sikh nationhood Coupled with this construction was the attempt of the militants to purge the community from all syncretism practised by the Sikhs It has been argued that despite this construction the Sikh community has continued to observe the composite tradition though the threat of militant violence greatly reduced the eclectic space of inter subjective communitarian understanding and interaction **Tyranny of Partition** Kathinka Sinha-Kerkhoff,2006 1 The Creation of New Nation States in Partition 2 The Working of Mental Borders in Pakistan 3 The Working of Mental Borders in Bangladesh
