insist or cause instability siphon off capital and destroy value without adding so much as a single widget to the economy Takes a fascinating tour of the wild side of fantasy finance to explain just how hedge fund managers make so much money and whether or not the million an hour crowd produces anything positive for society and the economy Teaches you hedge fund secrets that make it possible to pull down astounding sums in the space of minutes from rigging your bets to milking millions in special tax breaks if you're willing to bankrupt your morality for the cash Counters many of the most common arguments about why speculating in financial markets is somehow worth more than creating entertainment electronics or consumer goods that consumers want Written by Les Leopold the popular AlterNet writer and author of *The Looting of America*
