Dissertation Abstracts International ,2008 Electronic Banking Law and Commerce Report ,2005 Information and insight into the legal regulatory legislative and policy issues in electronic banking and commerce **Estuaries, Bridges from Watersheds to Coastal Seas** ,1995 *The Rotterdam Rules 2008* Alexander von Ziegler,Johan Schelin,Stefano Zunarelli,2010 The 2008 UNCITRAL Convention commonly known as the Rotterdam Rules promises to achieve the hitherto elusive goal of a legal unification of international transport contracts Its innovative set of rules accommodates such modern trade practices as those treating the carriage of goods by sea as part of wider door to door commercial transport operations and those relying on electronic commerce It closes many gaps in the existing international transport regime thoroughly specifying the relation of transport documents to the rights and obligations between exporters and importers of goods and clarifying the interests of credit and insurance in contracts of carriage This remarkable book which will examine the Rotterdam Rules in depth is edited and written by international lawyers intimately familiar with the negotiations leading to

the Convention in finished form It proceeds by a detailed analysis of each of the Convention's 18 chapters in turn in a clause by clause manner drawing attention to interlinking implications throughout the document The book's lucid insights and guidance are especially valuable in showing exactly how the Rules improve the existing international transport regime through its clearer and more complete regulation of such elements as the following and allocation of burden of proof and evidentiary value of transport documents and electronic records including non negotiable documents and records and freedom of contract in respect of volume contracts and continuous character of the obligation of seaworthiness and limits of liability and rights during transit and recovery of loss of and damage to goods caused by accidents of navigation and jurisdiction and arbitration and role of subcontracted carriers both on sea and inland and role of warehouses transport terminals and stevedoring companies and risks and contract practices of lenders and interests of freight forwarders cargo insurers and liability insurers and prevention of maritime fraud The authors provide a crystal clear picture that allows the reader to appreciate the balanced way in which the interests of the various stakeholders are addressed by the Rules and the greater legal certainty for each party's legal position the freedom to extend the Rules by contract to the whole transport operation the clear legal basis for the use of electronic transport records and the flexibility with which the Rules have left room for evolving trade practices It will be of immeasurable value to practitioners and all parties interested in understanding how the new Convention operates and how the provisions are intended to be applied after the Convention comes into force
