Fundamentals Of Object Tracking:

Fundamentals of Object Tracking, 2011 Kalman filter particle filter IMM PDA ITS random sets The number of useful object tracking methods is exploding But how are they related How do they help to track everything from aircraft missiles and extra terrestrial objects to people and lymphocyte cells How can they be adapted to novel applications Fundamentals of Object Tracking tells you how Starting with the generic object tracking problem it outlines the generic Bayesian solution It then shows systematically how to formulate the major tracking problems maneuvering multi object clutter out of sequence sensors within this Bayesian framework and how to derive the standard tracking solutions This structured approach makes very complex object tracking algorithms accessible to the growing number of users working on real world tracking problems and supports them in designing their own tracking filters under their unique application constraints The book concludes with a chapter on issues critical to the successful implementation of tracking algorithms such as track initialization and merging

Fundamentals of Object Tracking, 2011-07-28 Introduces object tracking algorithms from a unified recursive Bayesian perspective along with performance bounds and illustrative examples **Artificial Intelligence Trends for Data Analytics Using Machine Learning and Deep Learning Approaches** K. Gayathri Devi, Mamata Rath, Nguyen Thi Dieu Linh, 2020-10-07 Artificial Intelligence AI when incorporated with machine learning and deep learning algorithms has a wide variety of applications today This book focuses on the implementation of various elementary and advanced approaches in AI that can be used in various domains to solve real time decision making problems The book focuses on concepts and techniques used to run tasks in an automated manner It discusses computational intelligence in the detection and diagnosis of clinical and biomedical images covers the automation of a system through machine learning and deep learning approaches presents data analytics and mining for decision support applications and includes case based reasoning natural language processing computer vision and AI approaches in real time applications Academic scientists researchers and students in the various domains of computer science engineering electronics and communication engineering and information technology as well as industrial engineers biomedical engineers and management will find this book useful By the end of this book you will understand the fundamentals of AI Various case studies will develop your adaptive thinking to solve real time AI problems Features Includes AI based decision making approaches Discusses computational intelligence in the detection and diagnosis of clinical and biomedical images Covers automation of systems through machine learning and deep learning approaches and its implications to the real world Presents data analytics and mining for decision support applications Offers case based reasoning **Device-Free Object Tracking Using Passive Tags** Jinsong Han, Wei Xi, Kun Zhao, Zhiping Jiang, 2014-11-21 This SpringerBrief examines the use of cheap commercial passive RFID tags to achieve accurate device free object tracking It presents a sensitive detector named Twins which uses a pair of adjacent passive tags to detect uncooperative targets such as intruders Twins leverages a newly observed phenomenon called critical state that is caused by interference among passive

tags The author expands on the previous object tracking methods which are mostly device based and reveals a new interference model and their extensive experiments for validation A prototype implementation of the Twins based intrusion detection scheme with commercial off the shelf reader and tags is also covered in this SpringerBrief Device Free Object Tracking Using Passive Tags is designed for researchers and professionals interested in smart sensing localization RFID and Internet of Things applications The content is also useful for advanced level students studying electrical engineering and computer science

Handbook Assisted and Automated Driving Hermann Winner, Klaus C. J.
