Reviews of National Policies for Education Reviews of National Policies for Education: Chile 2004 Organisation for Economic Co-operation and Development, 2004-03-04 Education has been a central priority for Chile since the return of a democratic government in 1990. A recent reform

ensures twelve years of free and compulsory schooling for all Chilean children Enrolment in secondary education has expanded rapidly and teachers salaries have increased by 140% If current trends are anything to go by more than 800 000 students will be enrolled in higher education by 2010 Chile has achieved a great deal in a short period becoming the leader in Latin America for improving the quality of and access to all levels of education Reviews of National Policies for Education Chile covers the entire system of Chilean education from pre school through tertiary education and lifelong learning for all and analyses it in terms of its economic social and political impact The review is based on the OECD s ongoing co operation with non member economies around the world It is particularly interesting for those involved in educational policy as well as professionals directly working in the education system of Chile
