*The Rise of the Sharing Economy* Kevin Govender, 2021-09-27

Is access the alternative to ownership In 2011 the sharing economy was dubbed by Time magazine as one of the Ten ideas that will change the world and it has been widely hailed as a major growth sector by sources ranging from Fortune magazine to the World Economic Forum to former President Obama The sharing economy is a new economic model that focuses on access to assets or resources instead of ownership It has exploded in popularity over recent years and has disrupted a significant number of mature industries such as accommodation automotive and entertainment The total value of the global sharing economy is estimated to grow from 14 billion in 2014 to 335 billion by 2025 With limited resources the desire to become more environmentally conscious the high cost and burdens of ownership and a rapidly growing population living increasingly in densely populated cities consumers are faced with greater challenges and opportunities to fill their consumption needs People are experiencing a significant value shift with a desire to reconnect with products and services in a more meaningful way are becoming more cost and environmentally conscious and are prioritising experience over ownership An organisation's ability to reimagine and reinvent its business model to offer unique opportunities for humanising technology and developing innovative sharing platforms such as Uber and Airbnb would be a game changer for them While the Fourth Industrial Revolution and COVID 19 pandemic are influencing and changing consumer behaviour organisations are facing a dilemma that is affecting the future of their profitability existence and sustainability In *The Rise of the Sharing Economy* Kevin Govender shares his insights and expertise on the evolution of the sharing economy consumer behaviour and alternative business models and empowers consumers to rediscover and realise the enormous benefits of access over ownership and the potential savings in time money space and the opportunity Access is a cultural and socio economic phenomenon that is transforming businesses consumers the way we live work learn consume commute and play Access is the new ownership

*The Four Competitive Business Drivers* Jorge Sá, Magda Pereira,2026-01-13 Sometimes management books achieve a clear cut distinction between strategy and tactics Seldom they include the business model as a third

competitiveness driver And never so far has the theory of business been considered as a fourth required performance vector different from all other three However organizational optimization requires all four the why where what and how The theory of business Drucker is the why the company makes sense The reality assumptions the organization is grounded upon What it is paid for The business model Porter is the what the basic pillars of a firm s organization How it transforms client satisfaction into value for itself Strategy Joffre is the where the choice of 1 geographical areas 2 industries and 3 within them of segments And tactics is the how respecting to the nine functional areas from marketing Kotler to human resources to how to advertise how to motivate etc Four inferences follow All four drivers are necessary conditions none sufficient They interrelate some impacting on others They must fit reinforcing each other and They should be periodically reviewed under a sequence of steps This is illustrated by the book s detailed examples of e g Nike Dollar Shave Club Spotify SpaceX Vend me Sears IBM Apple Music McDonald s Marks Spencer Canva SolarCity Farfetch etc The fundamental message is that neglect of any of the four drivers brings efficiency doing things right the Phronesis of Aristotle at the cost of lower effectiveness doing the right things the Chokhmah of Solomon With more and more resources producing less and less underperformance will follow
