Popular Culture in Africa Stephanie Newell, Onookome Okome, 2013-11-12 This volume marks the 25th anniversary of Karin Barber's ground breaking article Popular Arts in Africa which stimulated new debates about African popular culture and its defining categories Focusing on performances audiences social contexts and texts contributors ask how African popular cultures contribute to the formation of an episteme With chapters on theater Nollywood films blogging and music and sports discourses as well as on popular art forms urban and youth cultures and gender and sexuality the book highlights the dynamism and complexity of contemporary popular cultures in sub Saharan Africa Focusing on the streets of Africa especially city streets where different cultures and cultural personalities meet the book asks how the category of the people is identified and interpreted by African culture producers politicians religious leaders and by the people themselves The book offers a nuanced strongly historicized perspective in which African popular cultures are regarded as vehicles through which we can document ordinary people's vitality and responsiveness to political and social transformations

African-Language Literatures Innocentia Jabulisile Mhlambi, 2012-06-01 African language writing is in crisis The conditions under which African writing developed in the past only remotely similar to those of Western models resulted in an inability of Eurocentric literary models to explore the hermeneutic world of African language poetics inherited from the oral and the modern worlds Existing modes of criticism in the study of this literary tradition are often unsuited for a nuanced understanding of the intrinsic and extrinsic aspects at play in the composition production and reading of these literatures In African Language Literatures Innocentia Jabulisile Mhlambi charts new directions in the study of African language literatures generally and isiZulu fiction in particular by proposing that African popular arts and culture models be considered as a logical solution to current debates and challenges Mhlambi shows how the popular arts and culture approach brings into relationship the oral and written forms the local and the international and elitist and popular genres and locates and places the resultant emerging eclectic culture into its socio historical context She uses this theoretical approach to explore in a wide range of cultural products what matters or what is of interest to the people

irrespective of social hierarchies and predispositions It is her contention that in profound ways the African language literary tradition evinces diversity complexity and fluidity and that this should be seen as an invitation to look at systems of meaning which do not hide their connections with the facts of power and material life
