**Applications of Nuclear Materials** D. P. Singh, Vivek Anand, 2024-11-07 Over the decades nuclear materials have been used in different domains for the development of human civilization Our knowledge of nuclear properties initially restricted to the basic physics has now spawned many applications in other areas of science and beyond such as in forensic science material science nuclear medicine etc Recent advancements in science and technology have paved a path towards the establishment and growth of nuclear technology and industries This book will cover the recent developments in the field of nuclear science and technology and its applications in various sectors Covering both fundamental and advanced aspects in an accessible way this textbook begins with an overview of applications of nuclear material helping readers to familiarize themselves with the various theoretical and experimental developments and aims to elaborate various aspects of nuclear materials in the health and energy sectors *Management Practices - Opportunities and Challenges* BSR Moorthy, Dr Siva Kumar,

**Advanced Joining Technologies** Manjiah M, Shivraman Thapliyal, Adep Kumar, 2024-03-13 This book covers advances in fusion and solid state welding processes including basics welding metallurgy defect formation and the effect of process parameters on mechanical properties Details of the microstructural and mechanical behaviors of weldments are included This book covers challenges encountered during dissimilar welding of metal by fusion and solid state welding processes including remedial solutions and hybrid processes to counter the same Numerical and statistical simulation approaches used in the welding process for parameter optimization and material flow studies are described as well Features Provides details related to the microstructural and mechanical behaviors of welded joints developed by different welding processes Covers recent research content metallurgical analysis and simulation aspects Discusses the joining of plastics and ceramics Includes a dedicated chapter on machine learning and digital twin in welding Explores difficulties associated with the joining of dissimilar metals and alloys This book is aimed at researchers and graduate students in material joining and characterization and welding *Powder Metallurgy* Anil Kumar Sinha, 1981 *Mathematical Concepts and Applications in Mechanical Engineering and Mechatronics* Ram, Mangey, Davim, J. Paulo, 2016-10-25 The application of mathematical concepts has proven to be beneficial within a number of different industries In particular these concepts have created significant developments in the engineering field *Mathematical Concepts and Applications in Mechanical Engineering and Mechatronics* is an authoritative reference source for the latest scholarly research on the use of applied mathematics to enhance the current trends and productivity in mechanical engineering Highlighting theoretical foundations real world cases and future directions this book is ideally designed for researchers practitioners professionals and students of mechatronics and mechanical engineering

**Recent Trends in Engineering and Technology (NCRTE-2017)** Bijoy Kumar Upadhyaya, Bibhash Roy, Sekhar Datta, 2018-03-05 After successful organization of the National Seminar on Energy Science and Engineering 2013 NSESE 2013 during November 2013 Tripura Institute of Technology Narsingarh Tripura West has

organized the second National Conference on Recent Trends in Engineering and Technology 2017 NCR TET 2017 during March 17 18 2017 The seminar aimed to provide an opportunity for academicians and researchers in India to discuss the divergent issues related to recent trends in engineering and technology covering all aspects on one platform so as to critically examine the ongoing current research and derive directions for future research strategies and policy implications As a mark of remembrance a souvenir was published on this occasion The conference has received enormous response in the form of technical papers and research contributions from various authors across the country In total 55 numbers of technical papers related to different engineering domain were accepted for oral presentation Four invited papers from renowned faculty members of our country were also presented on the occasion We are also happy to keep our commitment of publishing a conference proceeding with ISBN through a prestigious publisher having all accepted full length papers
