Fifteenth-Century Persian Painting B. W. Robinson, 1993-03 In this book B W Robinson traces the development of the different styles of Persian painting during the fifteenth century and considers a number of the problems and issues involved in establishing a methodology and system of classification for Persian painting of that period Robinson begins by way of background with a review of the schools of Herat and Shiraz up to the middle of the century and then proceeds to tackle in order the three main fields of controversy painting under the Turkmans Timurid paintings in Transoxiana and Timurid painting in India The uneasy fusion of contrasting characteristics of Herat and Shiraz that resulted in the emergence of Turkman court painting is traced through the origins development and branching of the Turkman style into a definitive form Then the author reviews a branch of the art almost entirely neglected up to now which he identifies as originating in Transoxiana Finally he provides a new approach to the study of pre Mughal Indian painting in Persian style by dividing the material into five stylistic groups **Persian Miniature Painting and Its Influence on the Art of Turkey and India** Norah M. Tingley, British Library, 1983 *The Arts of Persia* Ronald W. Ferrier, 1989-01-01 Shows and describes examples of Persian calligraphy glass tile pottery lacquer books paintings jewelry textiles sculpture and architecture *Peerless Images* Vice-President Eleanor G Sims, Eleanor Sims, Boris Il'ich Marshak, Ernst J. Grube, Boris Marshak, I., 2002-01-01 This book is the first survey of the figural arts of the Iranian world from prehistoric times to the early twentieth century ever to consider themes rather than styles Analyzing primarily painting in manuscripts and albums on walls and on lacquered painted pen boxes and caskets but also the related arts of sculpture ceramics and metalwork the author finds that the underlying themes depicted on them through the ages are remarkably consistent Eleanor Sims demonstrates that all these arts display similar concerns kingship and legitimacy the righteous exercise of princely power and the defense of national territory and the performance of rituals and the religious duties called for by the paramount cult of the day She describes a variety of superb works of art inside and outside these categories noting not only how they illustrate archetypal themes but also what it is about them that is unique She also discusses the ways that Iranian art both influenced and was influenced by invaders and neighboring lands Boris I Marshak discusses pre Islamic and also Central Asian art in particular the earliest Iranian wall paintings and their pictorial parallels in rock carvings and metalwork and the richly painted temples and houses of Panjikent Ernst J Grube considers religious imagery and provides an informative bibliography **Persian Painting** Basil Gray, 1977 Iranian Persian art from the 13th century through the end of the 18th century Mediaeval Persian Painting Adel' Tigranovna Adamova, 2008 This book is a survey of the historical evolution of Persian painting and the factors internal as well as external which shaped its development and brought significant changes in the subject matter and forms of representation As these forms changed so did their status and the hierarchies of values they embodied coming to reflect changing views on

the status of images and the nature of painterly skill Thus an age when monumental painting largely determined the character of the representational arts gave way to a period when books and book painting defined artistic taste while subsequently a fashion for paintings and drawings on single sheets created a taste for painting in oils on canvas The final chapter of the book is an attempt to reconstruct one of the most famous albums the so called St Petersburg Muraqqa BOOK JACKET *The Art and Architecture of Islam 1250-1800* Sheila S. Blair,Jonathan M. Bloom,1996-09-25 They discuss for example how the universal caliphs of the first six centuries gave way to regional rulers and how in this new world order Iranian forms techniques and motifs played a dominant role in the artistic life of most of the Muslim world the one exception was the Maghrib an area protected from the full brunt of the Mongol invasions where traditional models continued to inspire artists and patrons By the sixteenth century say the authors the eastern Mediterranean under the Ottomans and the area of northern India under the Mughals had become more powerful and the Iranian models of early Ottoman and Mughal art gradually gave way to distinct regional and imperial styles **Persian Painting** Sheila R. Canby,2004-01-01 Jewel like colors rich patterns precise execution and virtuoso draftmanship characterize the best of Persian miniature painting the perfect realization of an ideal world This fully illustrated book provides a concise account of Persian painting from about 1300 to 1900 Beginning with the materials and tools which enabled the artists to achieve their remarkable effects Sheila Canby goes on to survey the stylistic development of Persian painting and the influences upon it of over six centuries of Iran s turbulent history Persian Painting from Miniatures of the XIII.-XVI. Mostly Miniatures Oleg Grabar, 2001-12 The mention of Persian painting conjures up images of beautifully illuminated manuscripts filled with tiny intricate pictures each a miniature festival of color Anyone who has seen Persian miniatures up close will attest to their captivating power In this book the renowned historian of Islamic art Oleg Grabar introduces Western audiences to Persian painting which consists primarily of miniatures illustrating works of literature but also includes murals and small ceramics decorated with pictures The masterpieces of this painting have a visual richness that requires the use of the intellect as well as the eye for their appreciation and Grabar seeks to situate the reader within their world that of Islamic culture in Iran from the Middle Ages to Modern times Through a series of chapters on various aspects of Persian painting he helps us understand its history the characteristics that define it and the delights to be discovered in it Grabar argues that this genre of painting offers a remarkable example of how books are illustrated in general and of how an Iranian secular taste emerged during centuries dominated by religious art He shows that the peculiarities of its historical background gave rise to specific characteristics striking colors dematerialization of space subtle evocations of emotions simultaneous lyricism and epic The qualities of Persian painting created a unique aesthetic mood that is related to Persian poetry and Islamic mysticism It was only at the beginning of the twentieth century that the Western art world began to discover Persian painting Inspired by its use of pure geometry and vivid palette Matisse and Kandinsky were among the first modernists to incorporate attributes of Persian art into their work And now a century later interest among museum goers continues to increase The allure of Persian painting lies in its absorbing complexities and in the surprising way it speaks to large questions about the nature of art and the perception of its masterpieces Grabar has written an incomparable book that both explains and re creates the pleasures of this art
