Gen AI, Authorship and the Law Mira Moldawer, 2026-02-03 This book interrogates the legal and cultural dimensions of persona authorship particularly in the context of publicity rights and the growing regulatory response to generative artificial intelligence Gen AI In an era of rapid technological advancement and evolving legal frameworks this book provides a groundbreaking analysis of the intersections between text authorship and vocabulary Through an innovative application of the if value then right IVTR principle the book deconstructs the shifting foundations of authorship in Western legal thought It examines the persona as a cultural text unrecognized by copyright law the hybrid nature of publicity rights authorship and the influence of postmodern vocabulary on legal adjudication Crucially it critically engages with the exclusion of Gen AI from authorship highlighting how legal doctrine rather than objective artistic neutrality determines creative legitimacy Bridging copyright and trademark law this book argues for a re evaluation of the balance between persona authorship and cultural control offering a compelling framework for understanding the future of intellectual property in the digital age It challenges conventional narratives and proposes new pathways for navigating authorship in a technologically mediated world The book will be of interest to anyone interested in the evolution of intellectual property law the intersection between law and culture and the impact of law and culture on the unique dilemmas posed by artificial intelligence

Digital Libraries Across Continents Le Yang, Alicia Salaz, 2025-06-13 Digital Libraries Across Continents illustrates how digital librarianship practitioners and scholars digitize exhibit and preserve their cultural heritage and how these practices may be influenced by the policy economic and sociocultural environments in which they are developed Including scholarly articles case studies examples of best practice and conceptual essays solicited from different continents this book provides an overview of the status quo of digital libraries around the globe The case studies examine how macro level policy funding and social priorities influence the development of digital libraries The volume offers a deeper understanding of the similarities and differences between libraries in different countries and the ways in which they view foster develop and sustain digital librarianship Chapters within the book examine systems standards workflows content protocol social and policy environments culture metadata and more through a series of case studies provided by practitioners working in these settings Taking a comparative international approach the book promotes the development of inclusive accessible and sustainable digital libraries that serve a global human knowledge endeavor Digital Libraries Across Continents provides a wide ranging examination of issues in cross border digital library contexts It will be essential reading for library practitioners as well as information scientists and educators

Critical Literacy in an AI World Kathy A. Mills, Amanda Gutierrez, 2025-12-18 Critical Literacy in an AI World is an innovative book that uses critical literary perspectives to examine generative AI It provides thought provoking insights into advancements in artificial intelligence which are increasingly entangled in human decision making across all spheres of society profoundly reshaping literacy and media practices Mills and Gutierrez analyse how these transformations affect and

are affected by the evolving nature of human knowledge consciousness creativity emotion ethics and aesthetics They highlight the importance of critical literacy for understanding and even reclaiming the power dynamics operating in the social construction of the human experience within AI driven texts and technologies This book encourages readers to critically navigate computational algorithms and agents that mediate digital social practices and daily life Blending theoretical frameworks and practical applications it advances students critical AI based digital reading and authoring skills as well as teachers capabilities to use critical pedagogies curricula and assessment for reflective AI text environments Critical Literacy in an AI World is essential reading for students and researchers in literacy and educational technology

Digital Culture & Society (DCS) Mathias Fuchs,Karin Wenz,2023-08-04 What happened to the 1960s ideas of machine art cybernetic art algorithmic revolution and the hopes for a democratization of the art market How do contemporary art practitioners cope with the political situation and with the attempts of the Silicon Valley giants to appropriate algorithmic generation of art like artefacts This issue aims to discuss how the early concept of computer art is now being reframed as digital post digital or algorithmic art under the prevailing conditions of big data smart AI an almost all encompassing surveillance technology and the political state of neo liberalism
