Jennifer Zielinski,Gale Group,2000 These volumes are compilations of data from select commonly found titles published by
Gale in partnership with Dun a compilation of business statistics from the federal government performance indicators
financial norms and ratios a directory of companies rankings recent mergers and acquisitions associations consultants trade
information sources and trade show data and a short bibliography of articles from trade magazines Each volume has the
usual fine set of Gale indexes There are SIC Standard Industry Classification to NAICS North American Industry
Classification and NAICS to SIC conversion guides a geographic index and a master index The convenient organization by
industry is certain to be appreciated by undergraduates yet libraries should be aware that most of this material is
repackaged from other sources which include Million Dollar Directory Dun Bradstreet s Industry Norms and Key Business
Ratios and Gale s excellent Encyclopedia of Associations Consultants and Consulting Organizations Directory Encyclopedia of
Business Information Sources and Trade Shows Worldwide The new volumes are well documented clearly citing the source
for the original data and for the government statistics presented in Chapter 2 The merger and acquisition information is easy
to read but not as complete as in Moody s manuals and the industry overview is not quite as detailed as the Standard Poor s
Industry Surveys but the introductory matter is more clearly written than in most business references Libraries that own all

or most of the titles listed here will find that this set duplicates and does not supersede the originals. Yet an undergraduate library with a small business collection will find these titles a good buy and two-year colleges, high schools, and small or medium-sized public libraries can use them to build up their business collections relatively inexpensively. *Library Journal*
