Memory and Complicity Debarati Sanyal, 2015-03-02 Since World War II French and Francophone literature and film have repeatedly sought not to singularize the Holocaust as the paradigm of historical trauma but rather to connect its memory with other memories of violence namely that of colonialism These works produced what Debarati Sanyal calls a memory in complicity attuned to the gray zones that implicate different regimes of violence across history as well as those of different subject positions such as victim perpetrator witness and reader spectator Examining a range of works from Albert Camus Primo Levi Alain Resnais and Jean Paul Sartre to Jonathan Littell Assia Djebar Giorgio Agamben and Boualem Sansal *Memory and Complicity* develops an inquiry into the political force and ethical dangers of such implications contrasting them with contemporary models for thinking about trauma and violence and offering an extended meditation on the role of aesthetic form especially allegory within acts of transhistorical remembrance What are the political benefits and ethical risks of invoking the memory of one history in order to address another What is the role of complicity in making these connections How does complicity rather than affect based discourses of trauma shame and melancholy open a critical engagement with the violence of history What is it about literature and film that have made them such powerful vehicles for this kind of connective memory work As it offers new readings of some of the most celebrated and controversial novelists filmmakers and playwrights from the French speaking world *Memory and Complicity* addresses these questions in order to reframe the way we think about historical memory and its political uses today

Futurity Amir Eshel, 2013-01-14 When looking at how trauma is represented in literature and the arts we tend to focus on the weight of the past In this book Amir Eshel suggests that this retrospective gaze has trapped us in a search for reason in the madness of the twentieth century's catastrophes at the expense of literature's prospective vision Considering several key literary works Eshel argues in *Futurity* that by grappling with watershed events of modernity these works display a future centric engagement with the past that opens up the present to new political cultural and ethical possibilities what he calls futurity Bringing together postwar German Israeli and Anglo American literature Eshel traces a shared trajectory of futurity in world literature He begins by examining German works of fiction and the debates they spurred over the future character of Germany's public sphere Turning to literary works by Jewish Israeli writers as they revisit Israel's political birth he shows how these stories inspired a powerful reconsideration of Israel's identity Eshel then discusses post 1989 literature from Ian McEwan's *Black Dogs* to J M Coetzee's *Diary of a Bad Year* revealing how these books turn to events like World War II and the Iraq War not simply to make sense of the past but to contemplate the political and intellectual horizon that emerged after 1989 Bringing to light how reflections on the past create tools for the future *Futurity* reminds us of the numerous possibilities literature holds for grappling with the challenges of both today and tomorrow

Parting Ways Stephen F. Szabo, 2004-09-30 Germany and the United States entered the post 9 11 era as allies but they will leave it as partners of convenience or even possibly as rivals The first comprehensive

examination of the German American relationship written since the invasion of Iraq Parting Ways is indispensable for those seeking to chart the future course of the transatlantic alliance In early 2003 it became apparent that many nations including close allies of the United States would not participate in the U S led coalition against Iraq Despite the high profile tension between the United States and France some of the most bitter opposition came from Germany marking the end not only of the German American special relationship but also of the broader transatlantic relationship s preeminence in Western strategic thought Drawing on extensive research and personal interviews with decisionmakers and informed observers in both the United States and Germany Stephen F Szabo frames the clash between Gerhard Schr der and George W Bush over U S policy in Iraq in the context of the larger changes shaping the relationship between the two countries Szabo considers such longer term factors as the decreasing strategic importance of the U S German relationship for each nation in the post cold war era the emergence of a new German identity within Germany itself and a U S foreign policy led by what is arguably the most ideological administration of the post World War II era

The Politics of Remembrance in the Novels of Günter Grass Alex Donovan Cole,2022-11-30 This manuscript argues for the importance of G nter Grass as a political thinker in addition to his status as a novelist and public intellectual capable of forming ethical responses to contemporary issues like neoliberalism and place of the petit bourgeoisie in social life I define Grass s trajectory as a thinker through his novels and speeches Primarily I draw attention to the role memory plays in Grass s thought that his work represented an intellectual and aesthetic response to the role Nazism continued to play in West German politics in the post war era To Grass Nazism represented a resurgent threat unaddressed following the end of World War II Later Grass amended his concept of memory politics to address neoliberal capitalism reiterating his radicalism and affirming the need for German society to resist the rise of extreme ideologies

Easier Fatherland Steve Crawshaw,2004-01-06 Germany is the most important and powerful country in Europe And yet it remains strangely little understood by itself as much as by the rest of the world It is in a state of remarkable flux confronting the demons of the past whilst also seeking to make the West and the East into one country a much greater challenge than it seemed The coming enlargement of the European Union which will bring much of formerly communist Eastern Europe into the EU will make Germany more pivotal than ever So what makes this country tick For decades after the Second World War the country remained strongly polluted by the Nazi legacy there was little attempt to confront the past For today s younger generation by contrast Nazism was a weird aberration that they themselves have difficulty in understanding The book will explore those changes and how German society itself is still in the midst of enormous change The story takes us through three periods Before the Poison pre 1933 The Poison 1933 45 and the heart of the book the period of Coming to Terms and the changes that this period has brought to the shape of the country The coming to terms with the past overlaps from 1990 onwards with the East West story where mutual misunderstanding has been rife

German "Victimhood" During World War Two: A New Chapter in Germany's Coming to Terms with Its Past? Christopher

Reichow,2014-05-13 Essay from the year 2013 in the subject History of Germany National Socialism World War II grade 1 0 Diplomatic Academy of Vienna School of International Studies language English abstract The Second World War and its historical categorization remains a disputed topic within the German society Still the way of how Germans are rethinking their history is in a state of flux While the question of collective and individual German guilt has attracted increased scientific and popular attention since the late 1960s more precisely after the Eichmann and Auschwitz trials German intellectuals and the German media have in recent years turned their attention again towards German suffering during the war This can be seen as a recourse within a new framework Already in the immediate postwar period Germans depicted themselves as victims of the war and its settlement The preferred self image was that of being first a victim of Hitler s and then of enemies hands Once again though very late Germans today consider their own countrymen as victims In movies and books they depict themselves and their ancestors not only as villains but also as people who endured air bombing starvation and expulsion This revived way of storytelling began around the new millennium and focused espe cially on Germany s civilian population An important stimulus for Germany s coming to terms with its past or Vergangenheitsbew ltigung was once again triggered by G nter Grass born in 1927 in Danzig one of the country s most popular and successful authors Already as a member of the famous Group 47 he had inter alia initiated a new concept to rejuvenate German literature particularly with his book The Tin Drum He also contested a denial of civic responsibility and guilt in past and present which he saw occurring in the consumerist driven Bonn Republic His first two books written in the new millennium the novel Crab walk published in 2002 and his autobiographic work Peeling the Onion released in 2006 were widely analyzed and sparked off a heated debate on both German guilt and German suffering By using both books as a case study this essay examines the main issues that were addressed by Grass and points out today s situation of German Vergangenheitsbew ltigung *Noeuds de Mémoire* Michael Rothberg,Debarati Sanyal,Maxim Silverman,2010 The work of polymath Jean Francois Lyotard has proved seminal in the best sense of the word original and historical both fundamental and far reaching neither partisan nor exclusive This retrospective volume deals with the extraordinary breadth of Lyotard s thought and his wide ranging impact on critical thinking in the late twentieth century Book Jacket **Memory Matters** Caroline Schaumann,2008 The series publishes monographs and edited volumes that showcase significant scholarly work at the various intersections that currently motivate interdisciplinary inquiry in German cultural studies Topics span all periods of German and German speaking lands and cultures from the local to the global with a special focus on demonstrating how various disciplines history musicology art history anthropology religious studies media studies political theory literary and cultural studies among others and new theoretical and methodological paradigms work across disciplinary boundaries to create knowledge and add to critical understanding in German studies broadly All works are in English Three to four new titles will be published annually Journal of Health, Physical Education, Recreation ,1938 **Individual and Mass Athletics** Seward Charle Staley,1925 *Lifetime Treasury of Elementary*
