What is Critical Thinking?

Critical thinking is like being a detective. It's when you ask questions, think carefully, and decide if something makes sense or not.

What is a Logical Fallacy?

A logical fallacy is like a trick in an argument. It's when someone tries to convince you of something by using reasoning that sounds good but is actually not strong or fair. Imagine someone saying, "You should eat ice cream for breakfast because all your friends do it." That doesn't make it a good idea, right? That's a logical fallacy!

Here's a list of the ones people often use:

- **Ad Hominem**
Attacking the person instead of their argument.

Example: "You can't trust her argument on environmental policy because she drives a gas-guzzling car."
- **Appeal to Authority**
Believing something because a famous person said it.

Example: "This diet must be effective because a celebrity endorses it."
- **Bandwagon Fallacy**
Thinking something is true because lots of people believe it.

Example: "Everyone is buying this brand of sneakers, so they must be the best."
- **False Dilemma**
Saying there are only two choices when there are actually more.

Example: "You're either with us or against us."
- **Hasty Generalization**
Making a quick judgment based on little or no evidence.

Example: "I met one rude person from that city, so everyone there must be rude."
- **Slippery Slope**
Saying one small thing will lead to a big, bad result without proof.

Example: "If we allow students to chew gum in class, soon they'll be breaking all the rules."
- **Straw Man**
Changing someone's argument to make it easier to attack.

Example: "If we allow students to chew gum in class, soon they'll be breaking all the rules."
