Jackson, John W. Slocum, 1999 This text maintains its coverage of management theories and concepts while delivering current thinking in management practices and ideas in the late 1990s Through its core competency paradigm students evaluate their own experiences with business management This development framework focuses on ways for students to develop six managerial competencies they will need to become effective managers communication planning and administration strategic action self management global awareness and teamwork *Design & Applied Arts Index* ,2000 **The New York Times Index** ,2002 The Wall Street Journal ,2007 **The Christian Science Monitor Index** ,1998 **The Times Index** ,2013-03 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Time educational supplement Scotland and the Times higher education supplement The Guardian Index ,1999 **Technology and the Spirit** Ignacio L. Gotz, 2001-08-30 Most contemporary accounts of the role of technology in world culture are alarmist and at times condemn many uses of technology without much effort to get beyond the surface of this worldwide phenomenon Technological innovations that might rightly be critiqued are taken as representative of the entire field of technology On the other hand there are those including some scientists for whom technology and its uses pose no questions at all and who seem to delight in predictions of a future totally dominated by technology They prey on the human delight in newness and innovation and on our readiness to be surprised by what may someday come to be G tz takes the position that so called technology problems are really our problems not the fault of technology Technology is an integral part of what we are as human beings a significant aspect of our evolution G tz also advances the thesis that technology may be viewed from the perspective of the human capacity to grow and that when we do so we are in effect spiritualizing technology and rendering it more meaningful to ourselves G tz suggests several models that may be employed to achieve this spiritualization This provocative analysis will be of interest to general readers as well as scholars students and researchers
