spy *Untangling the Web* is the National Security Agency's once classified guide to finding information on the internet. From the basic to the advanced, this 650 page book offers a fascinating look at tricks the real spies use to uncover hidden and not so hidden information online. Chapters include Google hacks, Metasearch sites, Custom search engines, Maps mapping, Uncovering the invisible internet, Beyond search engines, Specialized research tools, Email lookups, Finding people, Researching companies. A plain english guide to interworking Internet toolkits, Finding ISPs, Cybergeography, Internet privacy and security and over a hundred more chapters. This quote from the authors hints at the investigative power of the techniques this book teaches: Nothing I am going to describe to you is illegal nor does it in any way involve accessing unauthorized data but involves using publicly available search engines to access publicly available information that almost certainly was not intended for public distribution. From search strings that will reveal secret documents from South Africa filetype xls site za confidential to tracking down tables of Russian passwords filetype xls site ru login, this is both an instructive and voyeuristic look at how the most powerful spy agency in the world uses Google.

Learn Seo Darren Varndell, 2014-10-31. *SEO Books for 2015*. Have you ever wanted to learn how to tap into the vast stream of FREE traffic offered by Google and other major search engines but found it too complicated or confusing? Well, you are not alone. If you have looked into Search Engine Optimization (SEO) techniques but failed to get the traffic your website deserves, you know that learning SEO can be confusing, especially for a beginner. There is a lot of advice available online but much of it is out of date, too technical, or involves spammy software techniques or services. *Learn SEO: Beginners Guide to Search Engine Optimization* brings you an easy to understand, step by step, beginner's guide to learning search engine optimization based on years of experience in the industry and fully up to date for the SEO challenges that face webmasters for 2015 and beyond. In a series of easy to follow tutorials, you will learn how to: Uncover the traffic generating money making keywords for your market or niche; Search Engine Optimize your website or blog to tap into maximum traffic from major search engines; Use dozens of effective insider optimization techniques that normally take years of learning to master; Create quality content that your website readers and search engines will love; Use Social Media Marketing (SMM) to boost your website audience and brand; Enhance the quality and speed of your website; Google loves fast sites with quality content; Troubleshoot ranking problems and penalties; Providing clear explanations on every important ranking factor and other vital aspects of Search Engine Optimization, you can improve your rankings, boost traffic, and ultimately sales by learning the straight forward SEO techniques presented in this book. If the SEO practices you have been putting your faith in were produced prior to September 2012, you could be following outdated advice that will get your site penalized or even removed from the Google index. Completely, Google made some major algorithm changes in 2011 and more significant changes in 2012 with further updates rolled out in 2013 and 2014. Google has declared war on some previous Search Optimization strategies that were accepted as standard practice for SEO prior to 2012 that could now be considered black hat or simply no longer effective. *Learn SEO*
