

Getting Ahead on Student Loan Repayment

College Grad A

Name: Aleece
 Job Hire Date: October 2015
 Starting Annual Salary: \$48,127
 Student Debt Total: \$36,168

College Grad B

Name: Blake
 Job Hire Date: October 2015
 Starting Annual Salary: \$48,127
 Student Debt Total: \$36,168

"College Grad A," Aleece, and "College Grad B," Blake, get hired for their first job after college, both starting in November 2015 at the 2014 national **starting salary for college graduates of \$48,127**. They both have **\$36,168 in student loan debt**, right around the current **national student debt average of over \$35,000**.

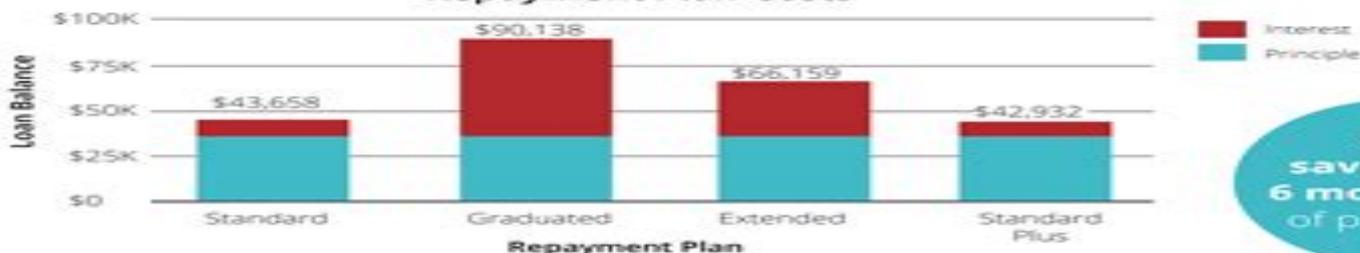

Both Aleece and Blake think they are aware of their financial situation, but only Aleece uses the iontuition platform for student loan management to layout her entire budget, including her student loan debt.

Aleece uses iontuition to import her student loan details and all of her other monthly bills. With her proper planning, she see that she has extra wiggle-room in her budget to afford to pay an additional \$40 per month to outstanding debt. She uses this money to make an additional payment to her student loan's Standard Repayment plan.

Assuming Aleece sticks to the Standard Plus plan and makes no other additional payments, her use of iontuition helps her save a total of **\$726** and complete her loan payoff in **December 2021** instead of in June 2022 or later with other repayment plans.

Blake doesn't use the budgeting tools he needs to help map out his potential success, so he doesn't realize that he, too, can afford to pay a little extra towards his student loan.

Assuming Blake sticks to a Standard Repayment plan and makes no other additional payments, he will complete his loan payoff in June 2022, six months after Aleece completes hers because he didn't use the management tools he needed to see what his financial success could have been.
