Cases in Congressional Campaigns Randall E. Adkins, David A. voices each chapter focuses on the micro level effects active in the individual campaigns Furthermore the editors discuss how the 2010 cycle fits into the existing literature on campaigns and elections conclusions about what we learned in 2010 by addressing these competitive states and districts and speculation on what might be ahead in 2012 In addition the companion website provides instructors with useful teaching tools including sample assignments and dynamic PowerPoint slides with graphs and videos
