The book introduces corporate finance to first year students in business schools Basic subjects such as marketing human resources and finance are all fundamental to the learning of a business manager A book on these subjects must emphasise learning that is conceptual in nature and at the same time application oriented This book attempts to achieve this in a manner that is comprehensive and shorn of complexity It examines the practice of finance without diluting theory and conceptual knowledge Corporate finance is necessarily quantitative in nature and the book duly places emphasis on that aspect It ensures the primacy of ideas and concepts utilising numbers as supportive elements **Business Finance** E. J. McLaney,2011 Business finance from a user's perspective is the focus of this book rather than being purely an academic study It is an introduction to making decisions about investments the firm should make and how best to finance those decisions
