### Questions

- The Collard Green leaf had the most stomata. The labels of both plants said they were grown in the USA. Iceberg lettuce is commonly grown in California, which is a dry environment with hot temperatures. This is consistent with the iceberg lettuce having less stomata than the collard greens as in hot and dry environments plants have less stomata to retain as much water as they can. Collard greens are commonly grown in South Carolina which is a more moist environment confirming that the collard greens would have more stomata as plants in moist
