Critical Thinking Across the Curriculum Diane F. Halpern,2014-02-04 Consider that many of the people who are alive today will be working at jobs that do not currently exist and that the explosion of information means that today s knowledge will quickly become outdated As a result two goals for education clearly emerge learning how to learn and how to think critically about information that changes at a rapid rate We face a multitude of new challenges to our natural environment difficult dilemmas concerning the use of weapons of mass destruction political agendas for the distribution of scarce commodities and wealth psychological problems of loneliness and depression escalating violence and an expanding elderly population International in scope and in magnitude these new problems strain resources and threaten the continuance of life on earth To creatively and effectively attack these imminent problems a well educated thinking populace is essential An abridged edition of Halpern s best selling text Critical Thinking Across the Curriculum is designed to help students enhance

their thinking skills in every class The skills discussed are needed in every academic area and setting both in and out of class They are determining cause assessing likelihood and uncertainty comprehending complex text solving novel problems making good decisions evaluating claims and evidence and thinking creatively In this adaptation of her best selling text Diane Halpern applies the theories and research of cognitive psychology to the development of critical thinking and learning skills needed in the increasingly complex world in which we work and live The book is distinguished by its clear writing style humorous tone many practical examples and anecdotes and rigorous academic grounding Everyday examples and exercises promote the transfer of critical thinking skills and dispositions to real world settings and problems The goal is to help readers recognize when and how to apply the thinking skills needed to analyze arguments reason clearly identify and solve problems and make sound decisions Also of importance a general thinking skills framework ties the chapters together but each is written so that it can stand alone This organization allows for maximum flexibility in the selection of topics and the order in which they are covered This book is intended for use in any course emphasizing critical thinking as an approach to excellence in thinking and learning

Critical Thinking Across The Curriculum: Developing Critical Thinking Skills, Literacy And Philosophy In The Primary Classroom Leicester, Mal,2010-09-01 This exciting practical book is an essential resource for every busy primary teacher and very easy to use in the classroom It provides advice beautifully illustrated original themed stories and critical learning activities The critical learning activities are accompanied by photocopiable resources including original photographs

Using Internet Primary Sources to Teach Critical Thinking Skills in Visual Arts Pamela J. Eyerdam,2003-03-30 Use the Internet to teach visual arts and refine students critical thinking skills This book is based on the Discipline Based Art Education program a proven art instruction program that teaches everything from the creative process and art history to criticism and aesthetics An abundance of primary source Web sites and background information is offered The main focus of the book is western art history and painting but examples of sculpture drawings prints and architecture are included along with a chapter on diversity Part I provides background material A brief history of art education is presented followed by a review of the components of design elements and principles The book describes using the Internet as a primary source by identifying and evaluating websites Part II follows the program through the main historical periods from prehistoric and ancient Middle Eastern art through the Renaissance through the 20th century A bibliography and index are included

Research on Education in Africa, the Caribbean, and the Middle East Kagendo Mutua,Cynthia Szymanski Sunal,2000-09-05 A historical overview of research on education in Africa the Caribbean and the Middle East Topics covered include the challenges and assistance of beginning teaching in Jamaica learning cognitive skills in Israel and a feminist analysis of sexual harassment among high school girls in Kenya
