*Black Ships and Sea Raiders* Jeffrey P. Emanuel, 2017-12-20 The end of the Bronze Age in the Eastern Mediterranean was a time of social political and economic upheaval conditions reflected in many ways in the world of Homer's *Odyssey* Jeffrey P Emanuel examines the *Odyssey*'s Second Cretan Lie xiv 191-359 in the context of this watershed transition with particular emphasis on raiding warfare maritime technology and tactics and the evidence for the so-called Sea Peoples who have been connected to the events of this period He focuses in particular on the hero's description of his frequent raiding activities and on his subsequent sojourn in the land of the pharaohs and connections between Odysseus' false narrative and the historical experiences of one particular Sea Peoples group the Sherden of the Sea

**William Watson and the Rob Roy** Walter E. Wilson, 2026-01-29 The *Rob Roy* may be the American Civil War's most famous blockade-running schooner Its fame stems from the spellbinding wartime memoir of its owner and captain William Watson This obscure but articulate Scotsman's rollicking tale is a standard maritime reference for scholars and students of America's most tragic conflict However his sea story is only partly true It blends verifiable facts with liberal doses of exaggeration and omission It was his story after all and he saw no harm in making himself its hero This first ever critical examination of William Watson's eyewitness account relies on widely dispersed contemporary accounts and official reports The narrative fills in the gaps that Watson left untold and exposes the true history of the people and events surrounding his blockade-running adventures In some cases the truth is even more remarkable than Watson's fictional version The resulting saga captures the excitement of this inherently dangerous business with long-deserved historical accuracy
