Politics and Sports in America Thomas R. Morris, Daniel J. Palazzolo, 2026-04-21 *Politics and Sports in America* offers a fresh perspective on the dynamic relationship between athletics and political life in the United States While recent scholarship has focused on the rise of athlete activism few political scientists have examined sports through a distinctly American lens Most existing studies emphasize international contexts Thomas R Morris and Daniel J Palazzolo address this gap by examining the intersections of sports and politics across multiple dimensions citizenship and civic identity the balance between national and local forces the role of elite athletes in advancing democratic principles such as equality and liberty the tension between individualism and collective action and the striking parallels between rival sports teams and polarized political parties They also explore how politicians intentionally engage with sports through policy decisions and symbolic gestures Taken together these perspectives reveal how the relationship between sports and politics enriches our understanding of the American republic and its democratic traditions Designed for scholars and instructors this book provides a political science framework for analyzing sports as a source of civic and institutional development It also serves as a resource for teaching American government offering innovative ways to connect political institutions processes and debates to the world of athletics Beyond academia the work speaks to sports fans who follow politics and citizens who follow sports inviting both groups to see how these spheres illuminate one another
