Music in Esports Eulalia Febrer-Coll, 2025-07-21. This book invites the reader to expand their idea of esports as an independent niche and consider it an integral part of a growing multi- and transmedia ecosystem that includes the global entertainment industry where music plays an essential role. The music present in and around esports games is an integral part of how they are communicated and mediated, and as such holds a central role in binding their narratives cohesively and coherently to appeal to their audiences. Popular music theory is placed at the foundation of the issues raised in the chapters, as it is taken as a cornerstone for linking the esports international scene with the music industry. This text uses specific case studies from popular esports to support and illustrate each chapter, including League of Legends, Counter Strike, and Fortnite. This book will be of great interest to researchers and students in the fields of esports, game design and development, musicology, and media studies.

Influencers, Online Alliances and Reconciliation in Southeast Europe Ivana Stepanovic, 2024-12-09. This book explores the transformative role of social media in fostering reconciliation in the former Yugoslavia, a region still grappling with unresolved conflicts and ethnic divides. Focusing on platforms like YouTube and TikTok, it highlights how Balkan influencers blend personal storytelling with commercial outreach to promote interethnic understanding. The study employs digital ethnography and narrative analysis to reveal the intricate dynamics between human actors and algorithms, uncovering how social media facilitates grassroots reconciliation initiatives. The author critiques traditional reconciliation efforts driven by political elites and emphasizes the potential of bottom-up approaches enabled by social media. It presents the concept of algorithmic reconciliation, where social media algorithms inadvertently foster interethnic collaborations and create transnational online communities. By examining the economic and cultural practices of influencers, the book illustrates how digital platforms can serve as modern arenas for peacebuilding. This book is primarily aimed at undergraduates and
