Stuart Vyse's *Going Broke* described the epidemic of personal debt that existed in the years leading up to the Great Recession and anticipated the home mortgage crisis that started it. Ten years later a fully updated new edition tackles the post-recession era of economic recovery. Today total household debt has actually surpassed pre-recession levels and some of the same problems that preceded the crash are back again. But the shape of our troubles has changed: the new face of financial failure features auto repossession, bankruptcy, eviction, wage garnishment, and being sued for unpaid bills. Vyse offers a unique psychological perspective on the financial behavior of the many Americans today who find they cannot make ends meet, illuminating these and other causes of our wildly self-destructive spending habits. But he doesn't entirely blame the victim, arguing instead that the mountain of debt burying so many of us is the inevitable byproduct of America's turbo-charged economy together with social and technological trends that undermine our self-control. This new edition illuminates everything from the rise of the credit card and ballooning student loan debt to the expansion of new shopping opportunities provided by social media, revealing how vast changes in American society over the last 40 years have greatly complicated our relationship with money. Vyse concludes with both personal advice for the individual who wants to achieve greater financial stability and with pointed recommendations for economic and social change that will help promote the financial health of all Americans.

[iOS 8 for Programmers](#) Paul Deitel, Harvey M. Deitel, Abbey Deitel, 2014-12-15. The professional programmer's Deitel guide to iPhone and iPad app development using iOS 8, Swift™, Xcode 6, and Cocoa Touch. This book presents leading-edge computing technologies for professional software developers. At the heart of the book is the Deitel app-driven approach, a variant of Deitel's live code approach: concepts are presented in the context of complete working iOS apps rather than using code snippets. The introduction and app test drives at the beginning of each chapter show one or more sample executions. The book's source code is available at www.deitel.com/books/iOS8FP1. You'll quickly learn everything you need to start building iOS 8 apps, beginning with a test drive of the Tip Calculator app in Chapter 1, then building your first apps in Chapter 2 with visual programming and in Chapter 3 with Swift. By the time you reach Chapter 9, you'll be ready to create your own apps for submission to the App Store. We'll overview the submission process, including uploading your apps, deciding whether to sell your apps or offer them for free, and marketing them using in-app advertising, social media, Internet public relations, and more.

Message Received: 7 Steps to Break Down Communication Barriers at Work Mary E. Donohue, 2020-09-29. The action plan you need to ensure everyone's understood digitally and across generations. According to social scientist and award-winning CEO Dr. Mary Donohue, we communicate ineffectively at work: a staggering 80% of the time. From the tone of an email to the almost-but-not-quite eye contact of a video conference app, today's tech has increased the speed and scope of our communications, as well as the opportunities to misunderstand each other completely. This lack of effective communication is a leading cause of workplace stress. In this widely anticipated and deeply researched book, Dr. Donohue, a victim of workplace stress herself, lays out a seven-step solution to give you the tools you need to make

communication a cure for workplace stress not a cause even especially when you re working with a generationally diverse team Discover what s at the root of the problem from misunderstood emails and misinterpreted texts to misconstrued social media posts and missed social cues on Zoom and learn how to respond to different communication preferences now Through helpful charts case studies evidence backed research and more you ll walk away with the tools you need to ensure everyone on your team yourself included is heard and understood so there s less time clarifying and more time for everyone to be their best most productive selves
