Tali K. Walters, Rachel Monaghan, Jesús Martín Ramírez, 2013. *Radicalization, Terrorism and Conflict* is a collection of scholarly works authored by international researchers and leading thinkers addressing contemporary history-making issues in international security and terrorism from an interdisciplinary perspective. Contributors to this edited volume represent global perspectives, ideas, analysis, and research. *Radicalization, Terrorism and Conflict* transmits relevant findings, theory, and policy ideas for scholars of security and terrorism studies, for policy makers, and to the general public who are interested in keeping up with this global area of concern. It provides a jumping-off point for conversation and collaboration that can lead to new knowledge and broader understanding. As an interdisciplinary collection of manuscripts, this book integrates and synthesizes theory, research, and public policy analysis in an effort to solve the complex questions and problems presented by this topic. Recognition of the need to approach the problems of radicalization, terrorism, and interpersonal conflict from an interdisciplinary perspective is gaining strength within academic settings, policy institutes, and global conferences. **Intelligence reform and counterterrorism effectiveness** Stefan Meingast,2008-04-16 Essay from the year 2005 in the subject Politics Region USA grade A University of Cincinnati language English abstract

Subsequent to the 9 11 terrorist attacks a sustained effort has been undertaken to reform the American intelligence agencies The establishment of a terrorism czar with more authority than the Director of the CIA used to have as coordinator of the intelligence enterprise and with a supporting bureaucratic structure to this end should lead to more unified coordinated and effective intelligence in particular in the context of counterterrorism The Intelligence Community has undergone previous organisational centralisation reforms and yet it failed to provide timely and accurate intelligence about the 9 11 terrorist threat A series of legitimate questions therefore arise is centralisation the wrong solution to the problem of intelligence effectiveness Is rather decentralisation the key Has structure any influence on the way intelligence agencies perform Answering these questions would reveal whether the adjustments to the structure of the Intelligence Community are justified or on the contrary determined by empirical fallacies such as the quick fix reorganisation syndrome In a broader context it would be also useful to know whether and how the effectiveness of counterterrorism intelligence could be improved by means of organisational structure This research question implies the scholarly literature of two disciplines organisation theory and political science International Relations and Security Studies Terrorism The nature and functioning of organisations in particular decentralisation and its effects on effectiveness have been studied at the level of business and bureaucratic organisations whereas studies on intelligence and its effectiveness are present within a broad range of security studies areas including the newer terrorism counterterrorism Answering the above research question would therefore mean applying theories and evidence in the organisation theory and organisational behaviour literatures to the terrorism counterterrorism one

**Spectrum of Terror** R. Hrair Dekmejian, 2007 Since 9 11 images of fanatical jihadists have become the international symbol of terrorism In the wake of the attacks journalists and academics alike have taken up the task of trying to make sense of these seemingly alien terrorist organizations Many of these sources have perpetuated the idea that terrorists are unknowable or irrational What is often missed is the degree to which terrorists have motivations that can be grasped and understood In his new text Dekmejian places terrorism within a spectrum of political violence creating a typology of terror based on scale and intent as well as by type of actor from isolated attacks by individual bombers to large scale attacks against state targets by organized networks to state sponsored genocide and politicide thus facilitating comparisons across multiple cases As well the book's model of conflict is informed by game theory enriched with understandings of psychological cultural and historical contexts helping students focus on the strategies and desired

outcomes of different parties to conflict This analytic approach enables students to trace the changes in mutual perceptions and preferences between terrorists and their targets and leads to a fuller understanding of the causes and dynamics of political violence The book s uniquely comprehensive coverage of terrorism includes extended cases on the IRA the Tamil Tigers Chechen rebels Al Qaeda Aum Shinrikyo Hizbullah and Hamas Each case looks at the historical origins political factors leadership and organization of the group to give context Discussions of typical tactics patterns of violence the role of external actors and outcomes help readers to explore possible solutions that might stop the cycle of violence and promote peaceful coexistence among the antagonists Appendix materials include glossaries of terrorist groups and technical terms
