Fall Books Ipad Ideas:

The Learning Habit Stephanie Donaldson-Pressman, Rebecca Jackson, Robert Pressman, 2014-09-02 A groundbreaking approach to building learning habits for life based on a major new study revealing what works and what doesn't. Life is different for kids today. Between standardized testing, the Common Core Curriculum, copious homework assignments, and seemingly endless amounts of screen time, it's hard for kids and parents to know what's most essential. How can parents help their kids succeed, not just do well on the test but develop the learning habits they'll need to thrive throughout their lives? This important and parent-friendly book presents new solutions based on the largest study of family routines ever conducted. The Learning Habit offers a blueprint for navigating the maze of homework, media use, and the everyday stress that families with school-age children face, turning those stress times into opportunities to develop the eight critical skills kids will need to succeed in college and in the highly competitive job market of tomorrow: skills including concentration and focus, time management, decision making, goal setting, and self-reliance. Along with hands-on advice and compelling real-life case studies, the book includes 21 fun family challenges for parents and kids, bringing together the latest research with simple, everyday solutions to help kids thrive academically and beyond.

The Equation of Sales Tim Gibbons, 2021-05-24 A practical guide to selling technology. The Equation of Sales is the distillation of more than 20 years of sales experience into practical tools for people selling technology. $\text{Trust} \times \text{Needs} \times \text{Value}$. Successful selling: Trust, needs, and value are the three things that a sales person must establish with any buyer, whether they are selling shoes or aeroplanes. People buy from people that they trust; people buy something that they need, and they buy something that they perceive as valuable. If the sales person cannot establish all three, generally in that order, then they will struggle to sell. This book will help you to understand how to establish that trust, how to identify those needs, and how to demonstrate value to your customer. As a result, you will make more sales and make more commission. The book is mainly aimed at people starting their careers in technology sales. It provides the basic tools to decide which customers to try to sell to, how to find out what they might need, and how to persuade them that your solution is the most effective one. For people who have been working in sales for a number of years, the book provides great tips and hints and refreshes your knowledge about these things. It is not the only sales book you will ever need, but it should be the first sales book that you need. It

provides the foundation for further training and development To help with that it includes a workbook featuring an example product and sales person plus worksheets for you to complete so that you can immediately apply what you have read to your own product
