The Power to Name H.A. Olson, 2013-12-01 In this preface I will include explanations of three factors the intended audience of this book the

structure of the book and the acknowledgement of many who contributed to its fruition *The Power to Name* is intended for two audiences those interested in knowledge organization and those interested in theoretical study of representation These two groups come from the perspective of the structure and principles of organization and from the perspective of understanding the cultural ramifications of naming The first may be those who develop subject representation schemes for a wide range of purposes and those who apply those schemes They may be librarians information scientists web developers or knowledge managers The second group are likely to be feminist poststructural and postcolonial theorists who explore the construction of meaning It is my hope that both of these audiences will find the case of subject representation in library catalogues illuminating in a much wider sense I have tried to include a modicum of explanation for each audience while avoiding over explanation for either This approach will require some patience and some close reading from each The intellectual structure of the book is introduced in the first chapter However in a book on organization of knowledge and information it is important to also explain its internal syndetic structure I have used some somewhat unconventional approaches The book contains a fair number of manual hyperlinks references to earlier discussions of a topic in the form of see also page referrals *The Post-colonial Studies Reader* Bill Ashcroft, Gareth Griffiths, Helen Tiffin, 2006 Boasting new extracts from major works in the field as well as an impressive list of contributors this second edition of a bestselling Reader is an invaluable introduction to the most seminal texts in post colonial theory and criticism **Rethinking Classroom Participation** Katherine Schultz, 2009-10-30 Katherine Schultz examines the complex role student silence can play in teaching and learning Urging teachers to listen to student silence in new ways this book offers real life examples and proven strategies for rethinking classroom participation to include all students those eager to raise their hands to speak and those who may pause or answer in different ways from publisher description *Feminist Ethics* Claudia Card, 1991 Fifteen essays address subjects ranging from the history of feminist ethics to the logic of pluralist feminism and present feminist perspectives on such topics as terrorism bitterness women trusting other women and survival and ethics Paper edition unseen 14 95 Annotation copyrighted by Book News Inc Portland OR **Gendered Voices** Karin Bergstrom Costello, 1996 Voices from many perspectives speak through the selections of this expansive and diverse new collection of readings for undergraduate composition courses as well as for courses in women s studies and American studies Both the selections and the assignments emphasize how issues of ethnicity race and class intersect with gender Native Latin African Asian and European American voices represent vast diversity in geographical setting class race politics sexual orientation tone perspective and style providing limitless possibilities for focusing and organizing the material Two introductory chapters define the roles of biology and culture in shaping gender and trace the development of gender roles in America The remaining seven chapters explore how gender is defined and experienced in our lives [Women Studies Abstracts](#), 1991 *African American Review*, 1995 **American Women Writers: Supplement** Lina Mainiero, 1979 **Investigating**

Gender Becky Francis, Christine Skelton, 2001 Investigating Gender maps the contemporary and developing theoretical debates in the field of gender and education and provides an overview of the diverse areas of research within gender and education The Western Journal of Black Studies, 1996 500 Great Books by Women Erica Bauermeister, Jesse Larsen, Holly Smith, 1994 Often poorly represented in buyers guides women's books are now covered in this articulate and intentionally eclectic reader's guide Covering a wealth of remarkable novels narratives biographies and more this resource for general readers offers more than 500 entries capturing the flavor of each book Includes seven cross referenced indexes

Across Cultures Sheena Gillespie, Robert Singleton, 2002 Designed to offer an appealing anthology where there is an increased general interest in connections between and among cultures Across Cultures Fifth Edition strives to promote understanding of diverse cultures The book provides an extensive sampling of and advocates acceptance of a diversity of voices while suggesting ways to probe the correspondences interrelationships and mutual benefits of that diversity The selections cover an even greater variety of cultural facets than the table of contents indicates For example the readings in Work the subject of Chapter 4 lead students to consider related subjects such as affirmative action immigration cultural displacement family narratives and definitions of success Throughout the text readers are encouraged to draw connections between and among readings through Correspondence questions that accompany each selection thus developing their critical thinking skills For those interested in developing their critical thinking reading and writing skills while learning about cultural diversity **The Caribbean Woman Writer as Scholar** Keshia Nicole Abraham, 2009 What does it mean to be a Caribbean woman writer Shall I write about being from the Caribbean or about being a woman And in what ways am I to differentiate being a writer from being a scholar Should any such differentiation be made The first volume in The Caribbean African Diaspora Series this collection of incisive and provocative essays by a range of writers addresses this question posed by noted author Myriam Chancy in her chapter The wide variety of perspectives and literary approaches convey the immediacy of the contributors responses
